KIRISH (Fan doktori (DSc) dissertatsiya annotatsiyasi)

Dissertatsiya mavzusining dolzarbliji va zarurati. Dunyoda nodavlat notijorat tashkilotlari jamiyat va davlatni bir-biriga bog‘lovchi ko‘prik sifatida ijtimoiy-iqtisodiy muammolarni hal qilish, “ezgu boshqaruv” konsepsiyasini amalga oshirish, kambag‘allikka qarshi kurash, BMTning 2030-yilgacha erishilishi lozim bo‘lgan 17 ta BRM va ularga bog‘liq bo‘lgan 169 vazifalarni bajarishda davlatga asosiy sherik sifatida belgilangan¹. Rivojlangan davatlarda iqtisodiyotdagi ulush o‘rtacha 10-14 foizi, ish bilan band aholining o‘rtacha 10 foizi “nodavlat sektor”ga to‘g‘ri kelmoqda². Bundan tashqari, bugungi kunda dunyoning turli nuqtalarida davom etayotgan geosiyosiy mojarolar, shuningdek, iqtisodiy va ijtimoiy zararining ko‘lami II jahon urushiga qiyoslangan COVID-19 postpandemiya sharoiti nodavlat sektor” salohiyati va imkoniyatlaridan oqilona foydalanish zaruratini yana oshirmoqda. Yuqorida keltirilgan omillar nodavlat notijorat tashkilotlari faoliyatini takomillashtirishga qaratilgan yanada samarali tashkiliy-huquqiy mexanizmlarini ishlab chiqish zarurligini ko‘rsatmoqda.

Jahonda nodavlat notijorat tashkilotlariga o‘zini o‘zi tartibga solish huquqini berish, raqamlashtirish sharoitida insonlarning uyushish huquqini amalga oshirishning yangi mexanizmlarini ishlab chiqish, raqamli jamoatchilik nazoratini amalga oshirish, ijtimoiy muammolarni hal etishda nodavlat notijorat tashkilotlarining imkoniyatlari va salohiyatidan oqilona foydalanish yuzasidan qator ilmiy tadqiqotlar amalga oshirilmoqda. Jumladan nodavlat notijorat tashkilotlarining “uchinchi sektor”dagi maqomini aniqlash, jamiyat va davlatni barqaror rivojlantirish, inson huquq va erkinliklarini ishonchli himoya qilish, norma ijodkorligi jarayonida jamoatchilikning ishtirokini yanada kengaytirish, sohaga “aqli boshqaruv” konsepsiyalarini joriy qilish masalalariga ham ilmiy, ham amaliy xarakterga ega muhim tadqiqot yo‘nalishi sifatida alohida e’tibor qaratilmoqda.

Respublikamizda “Jamiyat – islohotlar tashabbuskori” ulug‘vor g‘oyasining hayotda aks etishida fuqarolik jamiyatni institutlari faol ishtirokini ta’minalash, fuqarolarning jamiyat va davlat boshqaruvidagi ishtirokini kengaytirish, “xalq diplomatiyasi” instituti orqali xalqaro hamkorlikni rivojlantirish, jumladan mamlakatimizning nufuzli xalqaro reytinglarda egallagan o‘rnini yaxshilashda nodavlat sektorning salohiyatidan unumli foydalanish, ularga xalqaro munosabatlarda faol bo‘lishini qo‘llab-quvvatlash bo‘yicha keng qamrovli tizimli chora-tadbirlar amalga oshirilmoqda. Shuningdek, nodavlat notijorat tashkilotlarining mustaqilligini ta’minalash maqsadida davlat organlari va mansabdor shaxslarning nodavlat notijorat tashkilotlari faoliyatiga aralashmaslik prinsipining amalda ta’milanishi bo‘yicha muayyan tashkiliy va huquqiy choralar ko‘rilmoxda.

“Jamoatchilik nazoratini amalga oshirishning zamonaviy shakllarini rivojlantirish, jamoaviy murojaatlar asosida hududiy, tarmoq va davlat dasturlari ijro sifatini tekshirish amaliyotini joriy etish, ayrim davlat funksiyalarini amalga oshirish jarayoniga jamoatchilik nazorati subyektlarini keng jalb qilish, davlat organlari faoliyatini o‘rganishda ijtimoiy so‘rovlar o‘tkazish hamda aniqlangan kamchiliklarni

ochiq muhokama qilish amaliyotini yo‘lga qo‘yish ijtimoiy sheriklikning samarasini oshirish, nodavlat notijorat tashkilotlari va fuqarolik jamiyatining boshqa institutlarini davlat tomonidan subsidiyalar, grantlar va ijtimoiy buyurtmalar shakllarida qo‘llab-quvvatlash hajmini ikki barobarga oshirish”³ masalalari ustuvor vazifa etib belgilangan.

Shu bois, nodavlat notijorat tashkilotlari fenomening konstitutsiyaviy-huquqiy tabiatini tadqiq etish, ularning faoliyatiga oid mexanizmlarni ilmiy-amaliy jihatdan tahlil qilish asnosida “uchinchi sektor” faoliyatining tashkiliy-huquqiy asoslarni takomillashtirish va bu boradagi qonunchilikni xalqaro standartlarga moslashtirish dolzarb ahamiyatga ega.

So‘nggi yillarda yurtimizda nodavlat notijorat tashkilotlarining jismoniy va yuridik shaxslarning ijtimoiy, madaniy, ma’rifiy va ilmiy maqsadlarini amalgalashishdagi ishtiroki tobora kengayib bormoqda. Bundan tashqari, “nodavlat sektor” fuqarolarning sog‘lig‘ini himoya qilish, jismoniy tarbiya va sportni rivojlantirish, fuqarolarning ma’naviy va boshqa nomoddiy ehtiyojlarini qondirish, inson huquqlari va qonuniy manfaatlarini himoya qilishga qaratilgan loyihalar ko‘payib bormoqda.

Alovida e’tirof etish lozimki, 2023-yil 1-mayda yangi tahrirda qabul qilingan O‘zbekiston Respublikasi Konstitutsiyasida ham nodavlat notijorat tashkilotlari institutining huquqiy maqomi konstitutsiya darajasida belgilandi. Konstitutsiyaning XIII bobi “Fuqarolik jamiyatni institutlari” deb nomlanib, nodavlat notijorat tashkilotlari faoliyatini tashkil etish va amalgalashishga oid davlatning majburiyatlari belgilandi⁴. Yangi konstitutsiyaviy qoidalar asosida nodavlat notijorat tashkilotlari faoliyatini huquqiy tartibga solishga oid qonunchilik tizimini modernizatsiya qilish sharoitida shu kabi ilmiy tadqiqot ishlari juda muhim ahamiyatga ega.

Shuningdek, O‘zbekiston Respublikasi Prezidentining 2021-yil 4-martdagi Farmoni bilan 2021-2025-yillarda Fuqarolik jamiyatini rivojlantirish konsepsiysi tasdiqlandi. O‘zbekiston Respublikasi Vazirlar Mahkamasining 2023-yil 6-maydagagi qarori bilan mazkur konsepsiyaning 2023 va 2024-yillarda amalgalashish uchun chora-tadbirlari belgilandi⁵.

Nodavlat notijorat tashkilotlarini qo‘llab-quvvatlash borasida davlat byudjetidan 117 milliard so‘m miqdordagi mablag‘lar ajratilgan bo‘lsa⁶, 2023-yilning o‘zida 250 milliard ajratilishi rejalashtirilgan⁷.

chop etish tavsiya etilgan ilmiy nashrlarda 18 ta (14 ta respublika va 4 ta xorijiy nashrlarda) maqola chop etilgan.

Dissertatsiyaning tuzilishi va hajmi. Dissertatsiya tarkibi kirish, to‘rtta bob, xulosa, foydalanilgan adabiyotlar ro‘yxatidan iborat. Dissertatsiyaning hajmi 233 betni tashkil etgan.

DISSERTATSIYANING ASOSIY MAZMUNI

Dissertatsiyaning kirish qismida tadqiqot mavzusining dolzarbliji va zarurati, uning respublika fan va texnologiyalari rivojlanishining asosiy ustuvor yo‘nalishlariga mosligi, mavzuga oid xorijiy ilmiy tadqiqotlar sharhi, muammoning o‘rganilganlik darajasi, maqsad va vazifalari, obyekti, predmeti, usullari, ilmiy yangiligi, amaliy natijasi, natijalarning joriy qilinishi, aprobatasiysi, dissertatsiyaning hajmi va tuzilishi yoritilgan.

Dissertatsiyaning birinchi bobi “**Nodavlat notijorat tashkilotlari faoliyati talqinining nazariy-metodologik jihatlari**” deb nomlanib, unda olimlar va yetakchi huquqiy maktablar doktrinal qarashlari asosida nodavlat notijorat tashkiloti tushunchasi va uning konstitutsiyaviy-huquqiy tabiatini, insoniyat tarixini davrlashtirish asosida nodavlat notijorat tashkilotlari shakllanishi va rivojlanish tendensiyalari, mazkur fenomen faoliyatiga oid huquqiy asoslarning rivojlanish bosqichlari tahlil qilingan.

Muallif tomonidan A.Forobiy, G.Gegel, T.Gobbs, X.Odilqoriyev kabi olimlarning fuqarolarning jamoat birlashmalariga uyushish huquqining nazariy-metodologik jihatlari tadqiq etilib, fuqarolarning jamoat birlashmalariga uyushish huquqi bu insonning tabiiy instinkti hisoblanadi va ushbu jarayonda insonlarning mushtarak maqsadlari va sa'y-harakatlarni birlashtirish va insoniyat sivilizatsiyasining asosiy omili hisoblangan kommunikatsiyani qaror toptirish zaruriyatidan kelib chiqadi, degan yondashuvni ilgari suradi.

Tadqiqotchi “fuqarolik jamiyati institutlari” institutining quyidagi mualliflik ta’rifini ilgari suradi: “Fuqarolik jamiyati institutlari – jismoniy va yuridik shaxslarning huquqlari va qonuniy manfaatlarini, boshqa demokratik qadriyatlarni himoya qilish, ijtimoiy, madaniy va ma’rifiy maqsadlarga erishish, ma’naviy va barcha nomoddiy ehtiyojlarni qondirish, xayriya faoliyatini amalga oshirish hamda boshqa ijtimoiy foydali natjalarga erishishni ta’minlovchi o‘zini o‘zi boshqaruvchi demokratik institutlardir”.

O‘zbekiston Respublikasining 2023-yil 30-aprelda bo‘lib o‘tgan umumxalq referendumida qabul qilingan yangi tahrirdagi Konstitutsiyasida “fuqarolik jamiyati institutlari” va “nodavlat notijorat tashkilotlari” institutlariga konstitutsiyaviy maqom berildi.

Tadqiqotchi fikricha, mazkur rahbariy va metodologik ahamiyatga molik **konstitutsiyaviy qoidalar** asosida yaqin istiqbolda mamlakatimizning butun qonunchilik tizimi modernizatsiya qilinadi. Ushbu jarayonda NNTlar faoliyatini tartibga solishga yo‘naltirilgan qonunchilik hujjalardida ularning huquqiy maqomini mustahkamlovchi, faoliyatining tashkiliy-huquqiy mexanizmlarini yanada takomillashtirishga jiddiy hamda alohida mas’uliyat bilan yondashish lozim bo‘ladi.

Tadqiqotchi tomonidan Albert Eberxard Fridrix Sheffle tomonidan yaratilgan

“aralash iqtisodiyot” nazariyasi, shu bilan birga, Yevropa, orkeanorti, MDH davlatlari olimlarining “uchinchchi sektor” fenomeniga oid ilmiy-nazariy qarashlari tahlil qilinadi.

Muallif fikricha, “aralash iqtisodiyot” nazariyasi ishlab chiqilgan davrda ijtimoiy munosabatlarning markazida davlat turgan va ushbu nazariya bugungi kun talablariga javob bermaydi. Hozirda odatiy jamiyatning o‘rniga “virtual jamiyat” yoki “axborot jamiyati” tushunchalari ishlatilayotganligi, xalqaro munosabatlarda davlatlar ustunligidan voz kechish va inson huquqlariga ustunlik berish maqsadida “global fuqarolik jamiyati” tushunchalarining qo‘llanilishi ham jamiyatni 3 ta sektorga bo‘lish nisbiy ekanligini anglatadi.

Tadqiqotchi tomonidan fuqarolik jamiyatini ilmiy-nazariy o‘rganuvchi, uning rivojlanishini doimiy tahlil qilib boruvchi tahliliy va ilmiy-o‘quv laboratoriylarini (aql markazi) tashkil etish ishlarini jadallashtirish hamda ularning Tahliliy markazlar xalqaro reytingida ishtirotkini ta’minlash zarurligi bo‘yicha qarash ilgari suriladi.

Xorijlik L.Salomon, M. Karnea, Aleks de Tokvil, D.Devid va D. Djeri qarashlari, A. Smitning “Mehnat jamiyati” nazariyasi, shuningdek, X.Odilqoriyev, Sh.Yakubov, Ya.Ollamov, Dj.Shirinov va D.Xolmanova kabi yurtimiz olimlarining fuqarolik jamiyati institutlari, uyushish huquqi va “an’anaviy jamiyat” kabi institutlar tadqiq etilib, ularning nodavlat sektor vujudga kelishdagi o‘rni ilmiy-nazariy jihatdan tahlil qilingan.

Tadqiqotchi uyushish huquqining hosilasi sifatida muayyan mushtarak maqsad va muddaolarga ega shaxslarning birlashmasi “ma’lum yetuk bosqichi”ga yetgandan so‘nggina nodavlat notijorat tashkilotlari instituti vujudga keladi va inson taraqqiyotining eng muhim omili hisoblangan kommunikatsiyaga xizmat qilgan degan qarashni ilgari suradi.

O‘tkazilgan so‘rov natijalariga ko‘ra, jamoatchilikdan (jami 186 ta ishtirotchi) “NNTlarini bilasizmi?” deb so‘ralganida ishtirotchilarining 62 % (116) “ha” deb javob bergan bo‘lsa, 38 % (70) ular haqida ma’lumotga egamasligi, biroq eshitganligi haqida bildirganligidan kelib chiqib, tadqiqotchi so‘rovda qatnashganlarning qariyb 1/3 qismi mazkur institutning asosiy faoliyatidan bexabar” degan yondashuvni ilgari suradi.

Muallifning fikricha, bunga asosiy sabab sifatida birinchidan, aksariyat rivojlangan davlatlarda standart sifatida qabul qilingan “uchinchchi sektor” atamasi, milliy qonunchilik hujjatlarida va amaliyotda “fuqarolik jamiyati institutlari”, “jamoat tashkilotlari”, “jamoat birlashmalari”, “nodavlat sektor” kabi turlicha tarzda qo‘llanilganligi va ularning o‘zaro farqi hamda o‘xshash jihatlari aniq ajratib ko‘rsatilmaganligi, ikkinchidan ijtimoiy-iqtisodiy muammolarni hal etishda davlat fuqarolik jamiyati institutlari salohiyatidan to‘liq foydalana olmayotganligini keltirib o‘tadi.

Tadqiqotchi tomonidan B.Latipov, S.I. Omonfonvan, V.Xuxlina, S.A.Bunin va A.A.Malayevlar kabi olimlar fikrlari tadqiq qilingan holda Yangi O‘zbekiston sharoitida nodavlat notijorat tashkilotlarining funksiyalarini quyidagicha umumlashtirishni taklif etadi: *integratsiya, jamoatchilik nazorati, targ‘ibot, safarbarlik funksiyalari*.

BMTning Ustavi, Yevropa Kengashi hujjatlarida aks etgan xalqaro standartlarda, milliy qonunchilik hujjatlarida, shuningdek, L.Solomon, X.Anxeyer, S. Sokolovski, M.Lyons, X. Odilqoriyev, Sh.Yakubov, Sh.Nazarov kabi olimlarning qarashlaridagi “nodavlat notijorat tashkiloti” atamasi tahlil etilib, quyidagi mualliflik ta’rifi ilgari surilgan: “Nodavlat notijorat tashkiloti bu – jismoniy va (yoki) yuridik shaxslar tomonidan ixtiyoriylik asosida tashkil etilgan, daromad (foyda) olishni o‘z faoliyatining asosiy maqsadi qilib olmagan hamda olingen daromadlarni (foydani) o‘z qatnashchilari (a’zolari) o‘rtasida taqsimlamaydigan o‘zini o‘zi boshqaruvchi tashkiloti”.

Tadqiqotchi tomonidan xalqaro huquqiy standartlar va rivojlangan davlatlar tajribasi, shuningdek bir qator olimlar (L.Salomon, Z.Anxayer, Ye.A.Zlobina, B.Latipov) qarashlari asosida nodavlat notijorat tashkilotlari faoliyatining prinsiplarini tahlil qilib, o‘z yondashuvini ilgari suradi.

So‘nggi yillarda “Uchinchi sektor”ning jamiyat hayotida tutgan rolini oshirish bo‘yicha tendensiyalarga oid yirik tadqiqotlarni (A.Bax-Mortensen, B.Lang va P. Montgomeri, J.Xan, K.Xalselar, J. Bostok, R.Briz, R.Ridley-Braff va P.Krouser, J.Teyser va X. Liyang) tahlil qilgan holda, raqamli bozor sharoitida ijtimoiy jihatdan nochor qatlamni iqtisodiy va ijtimoiy muhofaza qilish majburiyatini NNTlari o‘z zimmasiga olishi hukumat, biznes va fuqarolik jamiyatni institutlari o‘rtasidagi o‘zaro hamkorlikni yangi bosqichga olib chiqadi, degan xulosaga kelingan.

Tadqiqotchi tomonidan T. Devis, T. Tved, P. Uillets, A. Kuruvila, V. Eberveyn, B. Reynaldum, V. Tessur, Ye. G.Tarhanova, X.Odilqoriyev, Sh.Yakubov kabi olimlarning nodavlat notijorat tashkilotlarining vujudga kelishiga oid qarashlari tadqiq etilib, individlarni birlashishga undovchi kuch, bu ularning umumiyl manfaatlardir degan yondashuv ilgari surilgan. Unga ko‘ra, jamiyatga birlashgan insonlarning manfaatlari ijtimoiy guruhning manfaatlari aylanadi. Albatta, bir individ muayyan ijtimoiy guruh a’zosi sifatida boshqa ijtimoiy guruhlarning ham a’zosi bo‘lishiga to‘siq qo‘yilishi mumkin emas, degan qoida nodavlat notijorat tashkilotlarning eng muhim prinsipi aylangan degan fikrni ilgari suradi.

Tahlillar shuni ko‘rsatmoqdaki, “jamoat tashkiloti” atamasi O‘zbekiston Respublikasining 22 ta normativ-huquqiy hujjatlarida, 200 dan ortiq holatda “nodavlat notijorat tashkilotlari” tarzida qo‘llanilgan. Shuningdek, 2023-yil fevral oyi holatiga ko‘ra, fuqarolik jamiyatni institutlari tushunchasi, O‘zbekiston Respublikasining amaldagi 60 dan ortiq normativ-huquqiy hujjatlarida qo‘llanilgan bo‘lib, ularning 20 tasi kodeks va qonunlar, 25 tasi O‘zbekiston Respublikasi Prezidentining farmon va qarorlari, 13 tasi Vazirlar Mahkamasining qarorlari hamda 4 tasi idoraviy-me’yoriy hujjatlardir.

Tadqiqotchi tomonidan O‘zbekistonda nodavlat notijorat tashkilotlarining evolyutsiyasi va rivojlanish tendensiyalari quyidagi davrlar asosida tadqiq etilgan: Ibtidoiy urug‘chilik jamoasi va mulk egaligining shakllanish davri (milodiy IV asrlargacha), Ilk O‘rta asrlar davri (V asrdan – VIII asr oxirigacha), Mustamlakachilik va milliy uyg‘onish davri (XIX asr o‘rtalari, podsho Rossiyasi bosqini davridan to 1917-yil Oktyabr davlat to‘ntarishigacha), Sovetlar davri

(1917-1991-yillar).

Tadqiqotchi “Avesto”da keltirilgan fuqarolik jamiyat institutlari shakllanishi va rivojlanishiga oid fikrlarni umumlashtirgan holda quyidagi yondashuvni ilgari suradi: birinchidan, aholi davlat boshqaruvida faol qatnashgan; ikkinchidan, fuqarolik jamiyatni belgisi sifatida aytish mumkinki, insonlar umumiyligi ijtimoiy foydali mehnat bilan shug‘ullangan; uchinchidan, xotin-qizlar va erkaklar teng xuquqqa ega bo‘lgan; ommaviy manfaatga oid masalalar Oqsoqollar Kengashida ko‘rilgan.

Ilk O‘rta asrlar davrining o‘ziga xos xususiyati sifatida shaxslarning muayyan mol-mulkidan ijtimoiy himoyaga muhtoj aholi va ilmiy muassasalarga xayriya ishlari uchun ajratish tizimi (“Vaqf”) joriy etilishi keltirib o‘tilgan.

Mustamlakachilik va milliy uyg‘onish davrida taraqqiyat parvarlarning sa‘y-harakatlari bilan ta’lim, ma’rifat, madaniyat, san’at, xayriya sohalarida ziyyolilar harakati (1917-yilda “Klub islomiya”, Qo‘qonda “Mirvajul islom”, Andijonda “Ozod xalq”, Kattaqo‘rg‘onda “Ravnaqul islom”, Xo‘jandda “Muayyan atlolibiyin” kabi tashkilotlar tashkil etildi. Shulardan “Sho‘roi islomiya”) sifatida siyosiy maydonga chiqa boshlaganligini anglatadi.

Tadqiqotchinga fikricha, Sobiq Ittifoq davrida KPSS sovet siyosiy tizimining yadrosi va yo‘naltiruvchi kuchi sifatida e’tirof etilib, amalda davlat mexanizmini harakatga keltiruvchi kuchga aylangan.

Muallif, L.Salomon va S. Sokolovski, J.Xan, T.D.Matveeva Yu.V.Botnev, Sh.Nazarov kabi olimlarning nodavlat notijorat tashkilotlarining asosiy missiyasini aniqlashga oid qarashlarini tahlil qilib, yondashuvni davlat instituti funksiyalaridan kelib chiqib emas, balki inson huquqlari, manfaatlari, ehtiyojlari rakursidan kelib chiqib tahlil qilish maqsadga muvofiq deb hisoblaydi va mazkur fenomenning asosiy missiyasi shaxsning huquqlari hamda qonuniy manfaatlarini himoya qilish va unga ko‘maklashish deb hisoblaydi.

Ko‘plab olimlar tomonidan bildirilgan fikrga ko‘ra, nodavlat notijorat tashkilotning asosiy faoliyati bu uni tashkil etishdan ko‘zlangan maqsadlarga mos keladigan va ta’sis hujjalarda ko‘rsatilgan faoliyat degan yondashuv haqiqatdan yiroq. Mazkur chegaralash bugungi kunda turli geosiyosiy mojarolar yoki pandemiya kabi kulfatlar sharoitida nodavlat notijorat tashkilotlari salohiyatidan maqsadli foydalanishga salbiy ta’sir ko‘rsatadi hamda nodavlat notijorat tashkilotining faoliyatini ta’sis hujjalari bilan chegaralashga olib keladi.

Dissertant fikricha, jamiyat va davlat ehtiyojidan kelib chiqib, nodavlat notijorat tashkilotlarining faoliyatini ta’sis hujjalari bilan chegaralash emas, balki ijtimoiy foydalilik mezonidan kelib chiqib erkinlik berish maqsadga muvofiq.

Shundan kelib chiqib, tadqiqotchi qonunchilikka nodavlat notijorat tashkiloti qonun bilan taqiqlanmagan hamda o‘zining ta’sis hujjalarda nazarda tutilgan maqsadlarga muvofiq bo‘lgan bir yoki bir nechta faoliyat turlari bilan shug‘ullanishi mumkinligi haqidagi normani kiritish lozim deb hisoblaydi.

Tahlillar ko‘rsatmoqdaki, 1991-yilda mamlakatda hammasi bo‘lib 100 ta NNT faoliyat ko‘rsatgan bo‘lsa, O‘zbekistonda jami ro‘yxatdan o‘tgan nodavlat notijorat tashkilotlar va ularning hisobga olingan bo‘linmalarining soni 2020-yil 1-yanvar holatiga 10 462 ta, 2023-yil 27-yanvar holatiga ko‘ra 8 922 ta bo‘lib

qolmoqda. Shundan 671 tasi respublika darajasidagi, 187 ta yirik respublika nodavlat notijorat tashkilotlari hisoblanadi. 2022-yilda 301 ta nodavlat notijorat tashkilotlarining faoliyati tugatilgan bo‘lsa, 382 tasi davlat ro‘yxatidan o‘tkazilgan. Tadqiqotchi fikricha, so‘nggi 3 yil davomida nodavlat notijorat tashkilotlarining soni kamayish tendensiyasi kuzatilmoqda.

Statistik ma‘lumotlarga ko‘ra, 337 mln aholi yashaydigan AQSH da bugungi kunda 1,4 mln NNT faoliyat yuritib, har 240 nafar aholiga 1 ta NNT to‘g‘ri keladi. Bugungi kunda 67 mln aholi bor Fransiyada 1,2 mln NNT faoliyat yuritadi. Ya’ni, bir NNTga 55 nafar aholi to‘g‘ri keladi. 2022-yil ma‘lumotlariga ko‘ra, 51 mlndan aholi yashaydigan Janubiy Koreyada 60 mingdan ortiq NNT faoliyat ko‘rsatadi. Bitta NNT ga 772 nafar aholi to‘g‘ri kelishini va aholining 4,2 foizi ijtimoiy tashabbuslarni amalga oshirishda bevosita ishtirok etayotganligini ko‘rsatadi.

Muallif, nodavlat notijorat tashkilotlar sohasida mamlakatimizda amalga oshirilgan qonunchilik islohotlarini rivojlanish davri va xususiyatlarini tahlil qilgan holda ushbu jarayonni shartli ravishda uch bosqichga ajratishni taklif etadi: Birinchi bosqich 1991-yildan 2010-yilgacha, ikkinchi bosqich 2010-yildan 2017-yilgacha, uchinchi bosqich 2017-yildan hozirga qadar.

O‘zbekiston Respublikasi Konstitutsiyasida jamoat birlashmalariga a’zolik masalalarida ixtiyoriylik prinsipiaga asoslanish konstitutsiyaviy darajada belgilanmaganligi ko‘rsatilgan holda, ixtiyoriylik prinsipi faqat kasaba uyushmasiga a’zolik masalasida bayon qilingan (73-modda). Tadqiqotchining fikricha, amaliyotda ushbu sohada yuz bergen holatlar va NNTlariga berilayotgan e’tiborni hisobga olgan holda bunday muhim prinsipni konstitutsiyaviy norma darajasida nodavlat notijorat tashkilotlariga ixtiyoriy a’zolikni belgilash talab qilinadi.

Dissertatsiyaning ikkinchi bobi **«Nodavlat notijorat tashkilotlari faoliyatini tashkil etishni huquqiy tartibga solish masalalari»** deb nomlanib, unda nodavlat notijorat tashkilotini ta’sis etish, uning tashkiliy-huquqiy shakllari, uni davlat ro‘yxatidan o‘tkazishning tashkiliy-huquqiy masalalari tahlil qilingan.

Tadqiqotchi, NNT tashkiliy-huquqiy asoslari bo‘yicha huquqshunos olimlar D. Xolmanova va J Shirinovlarning fikrlarini tadqiq etib, garchi nodavlat notijorat tashkiloti davlat ro‘yxatidan o‘tkazilgan paytdan e’tiboran tuzilgan deb hisoblansa-da, lekin uni ta’sis etish jarayoni ham mazkur nodavlat notijorat tashkilotlari huquqiy assoslarining tarkibiy qismi hisoblanadi, degan yondashuvni ilgari suradi.

Dissertant tomonidan so‘nggi yillarda nodavlat notijorat tashkilotlarining tashkil etilishi va faoliyatini yuritishda davlat ta’sirini minimal darajaga tushirish tendensiyasi kuzatilayotganligi asoslab berilgan. Mazkur nuqtayi nazarni so‘nggi besh yillikda rivojlangan davlatlarda o‘tkazilgan tadqiqotlar natijalari (M.Lyons, L.Salomon, X.Anxayer, Sh.Yakubov) ham ko‘rsatib berishini tahlil qilib, jahon tajribasida NNTlarining tashkiliy-huquqiy asosini shakllantirish va uni rivojlantirish siyosiy jihatdan emas, balki iqtisodiy jihatdan asoslanish tendensiyasi kuzatilayotganligini qayd etadi.

Tahlillarga ko‘ra, O‘zbekistonda faoliyat yuritayotgan 8 922 ta (2023-yil 1-yanvar holatiga) nodavlat notijorat tashkilotlarining tashkiliy-huquqiy shakllari quyidagicha:

- jamoat birlashmalar 7173 ta;
- muassasalar 713 ta;
- jamoat fondlari 555 ta;
- boshqa tashkiliy-huquqiy shakldagi NNTlar (uyushma, ittifoq) 481 ta.

NNTni tashkil etishda tashabbuskor guruh a’zolari quyidagi masalalarga e’tibor qaratishlari zarur:

birinchidan, notijorat tashkilotlarining tashkiliy-huquqiy shakllari faoliyat maqsadlari, ishtirokchilar tarkibi, a’zolik prinsiplari, mol-mulkni shakllantirish va uni tasarruf etish, boshqaruv va nazorat tizimi, boshqa holatlar bo‘yicha bir-biridan farq qiladi;

ikkinchidan, NNT, tashkiliy-huquqiy shaklidan qat’i nazar, adliya organlarida hududiy bo‘ysunishi prinsipi asosida davlat ro‘yxatidan o‘tadi;

uchinchidan, NNT nomidagi “markaz”, “jamiyat”, “qo‘mita” va shu kabi so‘zlar NNT tashkiliy-huquqiy shakllari hisoblanmaydi, bu ularning faoliyatiga taalluqli bo‘lgan “ekologik”, “bolalar”, “yoshlar” va hokazo tushunchalarga ham tegishlidir;

to‘rtinchidan, NNT nomidagi “homiylilik” so‘zi uning tashkiliy-huquqiy shaklini bildirmaydi, chunki u faqat homiylik tashkilotiga taalluqli bo‘lgan alohida maqomdir.

Nodavlat notijorat tashkilotlari vakillari bilan o‘tkazilgan intervyularda ma’lum bo‘ldiki, aksariyat nodavlat notijorat tashkilotlari ta’sis etilayotganda ta’sis hujjatlarini rasmiylashtirish, NNTning asosiy faoliyat yo‘nalishlarini tanlash, ta’sischilarga oid talablarni bilishda qiynalishadi.

O‘zbekistonda nodavlat notijorat tashkilotlarining davlat va jamiyat hayotidagi o‘rmini yanada takomillashtirish stretegiyasini belgilash, ijtimoiy sheriklikni rivojlantirishda O‘zbekiston nodavlat notijorat tashkilotlari milliy assotsiatsiyasi (O‘zNNTMA)ning o‘rni juda muhimligidan kelib chiqib, O‘zNNTMA tomonidan NNT ni ta’sis etish bosqichida ta’sischilarga uslubiy va huquqiy ko‘mak ko‘rsatish amaliyotini joriy etish maqsadga muvofiq deb hisoblaydi.

Muallif nodavlat notijorat tashkilotlarini davlat ro‘yxatidan o‘tkazish bo‘yicha sud amaliyoti tahlil qilinib, ma’muriy sudlar tomonidan ustav va boshqa ta’sis hujjatlaridagi kamchiliklar asosida uni davlat ro‘yxatidan o‘tkazish rad qilinishi qonunga muvofiq degan xulosaga kelganligi qayd etilgan.

Tadqiqotchi tomonidan ma’muriy sud ishlarini yuritishda nodavlat notijorat tashkilotlarini davlat ro‘yxatidan o‘tkazishga oid nizolarni ko‘rishda O‘zbekiston Respublikasining “Ma’muriy tartib-taomillar to‘g‘risida”gi Qonuniga ustuvorlik berish o‘rinli degan yondashuv ilgari surilgan.

Tadqiqotchi fikricha, nodavlat notijorat tashkilotlarini yagona tashabbuskor yoki asoschisi sifatida davlat tomonidan tashkil etilishi boshqa manfaatdor shaxslarning huquqlari cheklanishiga sabab bo‘ladi.

Dissertant o‘rganishlari asosida muayyan nodavlat notijorat tashkilotini tashkil etishga oid 60 dan ortiq normativ-huquqiy hujjatlar mavjudligi aniqlangan. Masalan, Savdo-sanoat palatasi nodavlat notijorat tashkiloti “O‘zbekiston Respublikasi Savdo-sanoat palatasi to‘g‘risida”gi qonun asosida tashkil etilgan.

Shuningdek, nodavlat notijorat tashkilotlarini O‘zbekiston Respublikasi Prezidenti huzuridagi selektor yig‘ilishlari bayoni bilan tashkil etish amaliyoti ham mavjud.

Muallif bildirishicha, davlat tashabbusi bilan tashkil etilgan nodavlat notijorat tashkilotlari “gibrid”, “kvazidavlat”, “GoNGO”, “sun’iy” sifati bilan qo‘llanib kelinadi. Tadqiqotchi fikricha, amaliyotda mazkur turdag‘i NNTlarning ta’sis hujjatlarini tuzishda adliya organlari huquqiy ko‘mak berib kelayotganligi va shu kabi holatlar nodavlat notijorat tashkilotlari tashkil etishda tenglik prinsipiga salbiy ta’sir ko‘rsatmoqda.

Tadqiqotchi tomonidan O‘zbekistonda bugungi kunda faoliyat yuritayotgan GoNGO institutining quyidagi asosiy xususiyatlarini ajratib ko‘rsatish mumkin:

birinchidan, mazkur institut davlat tashabbusi (huquqiy yoki nohuquqiy shakl) bilan ta’sis etiladi; **ikkinchidan**, shaklan davlatdan mustaqil bo‘lsa-da, ushbu institutlarning oliv rahbar organi (kollegial organi) a’zolari ko‘p hollarda davlat organlari mansabdar shaxslaridan iborat bo‘ladi; **uchinchidan**, ushbu institutlar va davlat organlari o‘rtasida takrorlanuvchi funksiyalar paydo bo‘ladi; **to‘rtinchidan**, davlat tomonidan moliyalashtirilishi natijasidadavlat organlari hisobdorlik vujudga keladi; **beshinchidan**, shu yo‘nalishda boshqa mustaqil nodavlat notijorat tashkiloti tuzish imkoniyati chegaralanishi natijasida mazkur institutning monopol pozitsiyasiga ega bo‘lishiga olib keladi.

Muallifning fikricha, O‘zbekiston Respublikasining “Savdo-sanoat palatasi to‘g‘risida”gi Qonun faqat bitta tashkilotning huquqiy maqomini belgilab berishi O‘zbekiston Respublikasi Konstitutsiyasining 72-moddasiga muvofiq “Davlat nodavlat notijorat tashkilotlarining huquqlari va qonuniy manfaatlariiga rioya etilishini ta’minlaydi, ularga jamiyat hayotida ishtirok etish uchun teng huquqiy imkoniyatlar yaratadi”, ‘Normativ-huquqiy hujjatlari to‘g‘risida”gi qonunning 9-moddasida belgilangan “O‘zbekiston Respublikasining qonunlari eng muhim va barqaror ijtimoiy munosabatlarni tartibga solishi”, “Nodavlat notijorat tashkilotlari to‘g‘risida”gi Qonunning 2-moddasida “NNT jismoniy va (yoki) yuridik shaxslar tomonidan ixtiyorilik asosida tashkil etilishi”ga oid qoidalarga, shuningdek, NNTning konstitutsiyaviy-huquqiy tabiatiga zid hisoblanadi.

Muallifning fikricha, kasaba uyushmalari, siyosiy partiyalar yoki diniy tashkilotlar to‘g‘risidagi qonunchilik shu turdag‘i barcha subyektlarga teng imkoniyatlar yaratib berishidan kelib chiqib, “Savdo-sanoat palatalari to‘g‘risida”gi Qonun tarzida qabul qilish va tadbirkorlik faoliyati subyektlarini birlashtiruvchi nodavlat notijorat tashkilotlariga teng imkoniyat yaratish maqsadga muvofiq.

Dissertant, jamoat birlashmalarining huquqiy maqomidan kelib chiqqan holda ularning quyidagi xususiyatlarini ajratib ko‘rsatadi:

birinchidan, jamoat birlashmasini tuzish va davlat ro‘yxatidan o‘tkazish uchun O‘zbekiston Respublikasining 18 yoshga to‘lgan kamida 10 fuqarosining tashabbusi talab qilinadi, bunda chet el fuqarolari va fuqaroligi yo‘q shaxslar siyosiy partiyalardan tashqari har qanday jamoat birlashmalariga a’zo bo‘lishlari mumkin; **ikkinchidan**, fuqarolar ixtiyoriy ravishda jamoat birlashmalarini tashkil etishlari va ularga a’zo bo‘lishlari mumkin, lekin ustavlarda ko‘zda tutilgan holatlarda jamoaviy a’zolar (mehnat jamoalari, jamoat kengashlari va boshqalar)

jamoat birlashmalarining yuridik shaxs hisoblanmaydigan jamoaviy a'zolari bo'lishlari mumkin; uchinchidan, jamoat birlashmasining barcha a'zolari, jamoat birlashmasidagi maqomi va holatidan qat'i nazar, bir xil huquqqa ega hamda qarorlar qabul qilishda va mol-mulkni boshqarishda bir xil majburiyatlarga egadirlar; to'rtinchidan, jamoat birlashmalari ishtirokchilarining kirish va a'zolik badallarini to'lashlari majburiy talab hisoblanmaydi, fuqaroning jamoat birlashmasi faoliyatidagi ishtiroki va a'zolik badalining to'lanishi uning huquqlarini cheklash yoki ustunlik o'rnatish uchun asos bo'la olmaydi.

Muallif fikricha, "jamoat fondi" ta'rifidan kelib chiqqan holda ularning quyidagi o'ziga xos xususiyatlarini ajratib ko'rsatish mumkin: **birinchidan**, ular notijorat tashkilotlariga mansub, ammo a'zolik tashkilotlari hisoblanmaydi; **ikkinchidan**, ham jismoniy va (yoki) ham yuridik shaxslar tomonidan ta'sis etilishi mumkin; **uchinchidan**, ustav maqsadlarini amalga oshirish uchun mol-mulklarini shakllantirishlari shart; **to'rtinchidan**, muassislar tomonidan jamoat fondiga berilgan mol-mulk fondning mol-mulki hisoblanadi va uning ustavida belgilangan maqsadlarni amalga oshirish uchun foydalaniladi, u ta'sischilar o'rtasida taqsimlanishi mumkin emas va garov yoki majburiyatlar bajarilishini ta'minlashning boshqa usuli sifatida foydalanilishi, shuningdek kreditlar berish uchun foydalanilishi mumkin emas; **beshinchidan**, jamoat fondi pul mablag'lari va boshqa mol-mulklaridan foydalanilishi to'g'risida har yillik hisobotini e'lon qilishi shart va har yili o'z faoliyatini auditorlik tekshiruvidan o'tkazadi; **oltinchidan**, ta'sischilar fondning majburiyatları bo'yicha javob bermaydi, fond esa ta'sischilarning majburiyatları bo'yicha javob bermaydi; **yettinchidan**, fondni ta'sischilarning qarori bo'yicha tugatib bo'lmaydi, bunday huquqqa manfaatdor shaxslarning arizasiga muvofiq faqat sud egadir; **sakkizinchidan**, qonunchilik fondga aloqador shaxslar bilan bitimlar fondga aloqador bo'lmagan shaxslar bilan bo'lganidagiga nisbatan bir mucha qulay shartlarda amalga oshirilayotgan bo'lsa, ularni tuzishni man qiladi

Dissertant tomonidan A.Najam, A.Zimmer, T. Brandsen, V Pestoff, S. Filips, S. Smit, Sh.Yakubov, D.Xolmanova, Dj.Shirinov NNTlari tashkiliy-huquqiy shakllari masalalariga bag'ishlangan tadqiqotlar tahlil qilinib, fuqarolarning sog'lig'ini saqlash, jismoniy madaniyat va sportni rivojlantirish, fuqarolarning ma'naviy va boshqa nomoddiy ehtiyojlarini qondirish, fuqarolarning huquqlari, qonuniy manfaatlarini himoya qilish, nizolarni hal qilish, yuridik yordam ko'rsatish, shuningdek xayriya yordamlarini ko'rsatish va boshqa maqsadlarga erishishda davlat NNTlari bilan ijtimoiy sherik sifatida teng munosabatlarga kirishayotganligi ko'rsatib o'tiladi.

Dissertant, nodavlat notijorat tashkilotining tashkiliy-huquqiy shakllari deganda, umumiy huquqiy nazariyadan kelib chiqqan holda normativ-huquqiy hujjatlar bilan NNTning faoliyatini tartibga solish maqsadida ular rioya qilishlari zarur bo'lgan tashkiliy va huquqiy shartlar tizimi degan ta'rifni mustahkamlashni taklif etadi.

Muallif qayd etishicha, qonunchilik darajasida NNTlarining tashkiliy-huquqiy shakllari asosan MDH davlatlarida uchrashi va tashkiliy-huquqiy shakl asosida nodavlat notijorat tashkilotlari faoliyatiga "chevara" belgilash mazkur

institut faoliyati erkinligini cheklaydi. Ushbu nuqtayi nazarni L.Salomon, X.Anxayer, N.Kollek tadqiqot natijalari ham tasdiqlaydi.

Tadqiqotchi fikricha, davlat xizmatlari markazlari tomonidan davlat ro‘yxatidan o‘tkazilib kelinayotgan tijorat tashkilotlarining birlashmalarini nodavlat notijorat tashkilotining huquqiy tabiatiga mos tushadi.

Shuningdek, qonun hujjatlarida bir vaqtning o‘zida ham yuridik shaxslar ham jismoniy shaxslar umumiyligi manfaatlarini ifodalash hamda himoya qilish, shuningdek o‘zlarining faoliyatini muvofiqlashtirib borish maqsadida tuzilgan a’zolikka asoslangan yuridik shaxsning tashkiliy-huquqiy shakli nazarda tutilmagan. Bu esa, yuridik va jismoniy shaxslar tomonidan umumiyligi manfaatlarini ifodalash hamda himoya qilish maqsadida a’zo bo‘lish orqali birlashishlarida qiyinchiliklar yuzaga keltirmoqda. Amaliyotda esa, ham yuridik shaxslar ham jismoniy shaxslar umumiyligi manfaatlarini ifodalash hamda himoya qilish, shuningdek o‘zlarining faoliyatini muvofiqlashtirib borish maqsadida tuzilgan a’zolikka asoslangan yuridik shaxs tuzilmoqda.

Muallif, qonun hujjatlariga tijorat tashkilotlarining birlashmalarini nodavlat notijorat tashkiloti shakliga kiritish hamda uyushmalar (ittifoqlar) tushunchasini kengaytirish bo‘yicha O‘zbekiston Respublikasining “Nodavlat notijorat tashkilotlari to‘g‘risida”gi Qonunga o‘zgartirish va qo‘sishchalar kiritishni taklif qiladi.

Tahlillar shuni ko‘rsatmoqdaki, Davlat ro‘yxatidan o‘tkazishda nodavlat notijorat tashkilotining tashkiliy-huquqiy shakllari o‘rtasidagi farqlar, ularni davlat ro‘yxatidan o‘tkazish bo‘yicha taqdim qilingan arizalarni ko‘rib chiqish muddatlari, ta’sischilarga qo‘yilgan talablar, davlat boji miqdori va boshqalardan iborat.

Tadqiqotchi tomonidan huquqshunos olimlar L.Xvan va J.N.Nematovlarning ma’muriy tartib-taomillar bo‘yicha tadqiqotlari tahlil etilib, nodavlat notijorat tashkilotini davlat ro‘yxatidan o‘tkazishni rad etish to‘g‘risidagi qaror bo‘yicha “tekshirish prinsipi”, arizadagi kamchiliklarni to‘g‘rilash uchun arizachiga imkoniyat va muddat berish, NNTga tegishli bo‘lgan barcha holatlar bo‘yicha o‘z fikrini bildirish imkoniyatini taqdim etish, NNTga qonun hujjatlariga muvofiq zarur yordam ko‘rsatilishi bo‘yicha taklif va tavsiyalar ilgari suriladi.

Muallif NNTni ro‘yxatidan o‘tkazish rad etilganligi ustidan sudlarga shikoyat qilinishi bo‘yicha quyidagi tartibni taklif etadi:

xalqaro, respublika, hududlararo nodavlat notijorat tashkilotlarini hamda xalqaro va xorijiy nodavlat notijorat tashkilotlarining vakolatxonasi va filialini ro‘yxatdan o‘tkazish rad etilganda – O‘zbekiston Respublikasi Oliy sudiga;

boshqa nodavlat notijorat tashkilotlarini ro‘yxatidan o‘tkazish rad etilganda – tegishli ravishda Qoraqalpog‘iston Respublikasi ma’muriy ishlar bo‘yicha sudi, ma’muriy ishlar bo‘yicha viloyatlar va Toshkent shahar sudlariga.

Muallif ta‘kidlashicha, NNT ta’sischilari yoki tashabbuskorlari “E-ngo” platformasi orqali Nodavlat notijorat tashkilotlarini davlat ro‘yxatidan o‘tkazish bo‘yicha jarayon qaysi bosqichida ekanligi to‘g‘risidagi ma’lumotni real vaqt rejimida olib turish tizimini joriy etishni taklif qiladi. Bu ma’muriy tartib-taomillarning muddatlari buzilishining oldini olish bilan bir qatorda manfaatdor

shaxs ma'muriy hujjat qabul qilish bo'yicha jarayonning shaffoflashishiga olib keladi.

NNTni ro'yxatdan o'tkazish to'g'risidagi ariza rad etilgan holda nodavlat notijorat tashkilotlarni davlat ro'yxatdan o'tkazganlik uchun to'langan davlat bojini uch oy o'tgach inobatga olmaslik va qaytarib bermaslik to'g'risida Qonun osti hujjat bo'lган Vazirlar Mahkamasining 2014-yil 10-martdagi 57-son qarori bilan tasdiqlangan Nodavlat notijorat tashkilotlarini davlat ro'yxatidan o'tkazish tartibi to'g'risidagi nizomning 27-bandidagi qoida "Davlat boji to'g'risida"gi qonun va qonunchilikdagi shaxslarning huquqlariga ziddir.

Tadqiqotchi fikricha, adliya organlari tomonidan davlat boji nodavlat notijorat tashkilotlarni davlat ro'yxatdan o'tkazish to'g'risidagi arizani ko'rib chiqish uchun emas, balki nodavlat notijorat tashkilotlarni davlat ro'yxatdan o'tkazish uchun undirilmoqda.

Yuridik shaxsning nomiga qo'yilgan talablar "Firma nomlari to'g'risida"gi Qonunda to'liq va har tomonlama inobatga olingan holda aks etgan. Shunga ko'ra, ushbu qonunda qo'yilgan talablarni NNTga nisbatan ham tatbiq qilish maqsadga muvofiq hisoblanadi.

Tadqiqotchi, adliya organlari tomonidan qoidalarsiz sport turlari federatsiyalarini davlat ro'yxatidan o'tkazishda "fuqarolarning sog'lig'i va ma'naviyatiga tajovuz qilishni maqsad qilib qo'ygan bo'lsa" jumlesi yuzaga keltirayotgan noaniqliklardan kelib chiqib, turlicha talqin qilish holatlarini yuzaga keltirmaslik bo'yicha aniq mezonlar belgilanishi zarur degan yondashuvni ilgari suradi.

Dissertatsiyaning uchinchi bobi "**Nodavlat notijorat tashkilotlari faoliyatining tartib-taomillari**" deb nomlanib, unda nodavlat notijorat tashkilotlari faoliyatini (maqsadini) amalga oshirishni huquqiy tartibga solish, uning faoliyatini moliyaviy ta'minlash masalalari, uning faoliyatini tugatishning huquqiy asoslari tahlil qilingan.

Dissertant tomonidan ushbu bob doirasida so'nggi yillarda nodavlat notijorat tashkilotlarining tashkiliy-huquqiy asoslarini liberallashtirishda asosiy e'tibor ularning tashkil etilishi va faoliyatini yuritishda davlat ta'sirini minimal darajaga tushirish tendensiyasi kuzatilayotganligi asoslab berilgan.

Muallif tomonidan NNTlar va davlat organlari o'rtasidagi o'zaro munosabatlarni tartibga solishga oid tadqiqotlar (D.Mullins va V.Miligan, K.A. Cherepov, Sh.Yakubov, K. Anxayer, S. Sokolovski, S. Topler) tahlil qilish asnosida davlat va NNT hamkorligini 4 ta modelga ("Bog'bon modeli", "Sheriklik modeli", "Ota-onal modeli", "Egiluvchan model") ajratish taklif etiladi.

Dissertant fikricha, nodavlat notijorat tashkilotlari va ularning ramzlarini davlat ro'yxatidan o'tkazish, rejalahtirilayotgan tadbirlar haqida xabardor qilish, chetdan pul mablag'larini olishni huquqiy tartibga solish bo'yicha ishlarni liberallashtirish maqsadida "Yangi O'zbekistonda Fuqarolik jamiyati – 2030" konsepsiyasini ishlab chiqish va qabul qilish zarur.

Nodavlat notijorat tashkilotlarining o'tkazilishi rejalahtirilayotgan tadbirlari haqida xabardor qilish tartibi Adliya vazirligi tomonidan tasdiqlanishi belgilangan bo'lsa-da, nodavlat notijorat tashkiloti sohasida ikkita ma'muriy reglamentning biri

Vazirlik tomonidan, biri Vazirlar Mahkamasi tomonidan tasdiqlanishi tizimlilik jihatdan ham, ma'muriy-tartib taomillarda ishtirok etuvchi shaxslarning huquqlarini teng ta'minlash jihatdan ham, raqamli tadbirlarni tashkil etish nuqtayi nazaridan ham qayta ko'rib chiqishni taqozo qiladi.

2021-yilda fuqarolik jamiyati institutlarini qo'llab-quvvatlash hajmi davlat tomonidan 2020-yilga nisbatan 2 baravarga oshirilib, 75,8 mlrd. so'mga yetkazildi.

Muallif, D. Lyuis, N. Kanji va N. Temudo kabi olimlarning tadbirkorlik subyektlari uyushmalarining – BONGO (Business-organized NGOs) huquqiy tabiatini tadqiq etilib, ushbu birlashmalar nodavlat notijorat tashkilotlar hisoblanishi zarur deb hisoblaydi.

Muallif fikricha, Nodavlat notijorat tashkilotlarining o'tkazilishi rejalashtirilayotgan tadbirlari haqida xabardor qilish tartibi to'g'risidagi nizomda mazkur tartib-taomillarning predmeti bo'Imagan hamda "Normativ-huquqiy hujjatlar to'g'risida"gi Qonunning 14-moddasiga (Vazirliklar, davlat qo'mitalari va idoralar, agar ularga qonun hujjatlari, O'zbekiston Respublikasi Prezidentining farmonlari va qarorlari, O'zbekiston Respublikasi Vazirlar Mahkamasining qarorlari bilan tegishli normativ-huquqiy hujjatlarni qabul qilish yoki ijtimoiy munosabatlarni huquqiy jihatdan tartibga solish bo'yicha vakolatlar berilgan bo'lsa, normativ-huquqiy hujjatlar qabul qilishi mumkin) zid bo'lган "Xabarnomani ko'rib chiqish tartibi" (3-bob) belgilangan. Shunga ko'ra, mazkur bobni bekor qilish taklif etiladi.

O'tkazilgan so'rovda "*Nodavlat notijorat tashkilotingizni moliyalashtirish manbasi haqida ma'lumot bering*" deb so'ralganida, respondentlarning **31** foizi – "Respublika byudjeti - grantlar va subsidiyalardan mablag' olamiz" deb; **20** foizi "viloyat byudjeti - mulkni imtiyozli (yoki beg'araz) ijaraga berish, subsidiyalar va grantlardan" deb; **22** foizi – "parlament komissiyasi yoki boshqa respublika (tashkilotlari) grantlari va xorijiy fondlar (tashkilotlar) grantlaridan" deb; **15** foizi "a'zolik badallari" deb; **12** foizi – "yuridik va jismoniy shaxslarning xayriya mablag'laridan" deb javob berishgan.

Tahlillar shuni ko'rsatmoqdaki, bugungi kunda nodavlat notijorat tashkilotlarining aksariyat tadbirlari elektron tizimlarda va onlayn o'tkazilmoqda. Lekin nodavlat notijorat tashkilotlarining o'tkazilishi rejalashtirilayotgan tadbirlari haqida xabardor qilishning amaldagi tartibi mazkur obyektiv zaruriyatni inobatga olmagan. Shunga ko'ra tadqiqotchi, tadbir o'tkaziladigan ko'cha va uy, tadbir o'tkaziladigan kun va soatni oson o'zgartirish kiritish va onlayn tadbirlarni o'tkazishga imkon beradigan huquqiy mexanizm joriy etishni taklif etgan.

Tadqiqotlar shuni ko'rsatmoqdaki, qonunchilikda yuridik shaxs hisoblanadigan alohida bo'linma to'g'risidagi nizomida qanday qoidalar bo'lishi kerakligi to'g'risida aniq normalar mavjud emas. Shunga ko'ra, bo'linmalari nizomida uning nomi, u o'z faoliyatini amalga oshiradigan hudud; tuzilmasi va rahbar organlari, rahbar organlarning vakolat doirasi va ularni shakllantirish tartibi, ularning vakolat muddatlari, doimiy asosda ishlaydigan rahbar organ joylashgan yer; mol-mulkni boshqarish borasidagi huquqlari; nodavlat notijorat tashkilotning ustavida qayd qilinmagan bo'linma faoliyatini tartibga soluvchi qonunchilikda belgilangan boshqa qoidalarni kiritish taklif etilgan.

Nodavlat notijorat tashkilotlar bilan uyushtirilgan intervylardan kelib chiqib, nazorat qiluvchi organlar (adliya, soliq, hisob palatasi va boshq.) tomonidan tekshiruvlar muddatlari buzilishi, tekshiruv va o‘rganishlar ketma-ket va tizimsiz amalga oshirishi natijasida NNT o‘z faoliyatini yuritishda qiyinchiliklar va to‘siqlarga duch kelishayotganligi ta’kidlangan.

Muallif fikricha, tekshiruvlarning takrorlanishining oldini olish va ortiqcha tekshirish yukini kamaytirish maqsadida barcha nazorat qiluvchi organlar NNT dagi rejali nazorat tadbirlarini (o‘rganish, monitoring va tekshirish) ro‘yxatga oluvchi organ bilan “E-NGO” elektron platformasida muvofiqlashtirgan holda bir vaqtida amalga oshirishni joriy etish maqsadga muvofiq.

Tadqiqotchi fikricha, amaldagi qonunchilikka binoan nodavlat notijorat tashkilotlarining kollegial rahbar organlari va Taftish komissiyasi faoliyati to‘liq tartibga solinmaganligi NNT mol-mulkini boshqarishda turli nizoli masalalarni keltirib chiqarmoqda. Shu sababli, O‘zbekiston Respublikasining “Nodavlat notijorat tashkilotlari to‘g‘risida”gi Qonunida kollegial rahbar organlari va Taftish komissiyasining huquqiy maqomi tartibga solinishi zarurligi ta’kidlangan.

Soliq Kodeksining 58-moddasida notijorat tashkilotlariga daromad olish maqsadiga ega bo‘lmaslik hamda daromadlarni yoki mol-mulkni ishtirokchilari (a’zolari) o‘rtasida taqsimlamaslik shartlarini qo‘yilishi “Nodavlat notijorat tashkilotlari to‘g‘risida”gi Qonuning 2-moddasida belgilangan mazkur tashkilotlarning huquqiy tabiatiga mos kelmaydi. Notijorat tashkilotlarda **umuman daromad olish maqsadiga ega bo‘lmaslik degan ta’rifni qo‘llash mumkin emas**. Shu sababli tadqiqotchi, mazkur tushunchani aniqlashda NNT huquqiy tabiatidan kelib chiqqan holda “daromad (foyda) olishni o‘z faoliyatining **asosiy maqsadi qilib olmaslik**” yondashuvini ilgari suradi.

Tadqiqotchi tahlillar asosida xalqaro ekspertlar, xalqaro tashkilotlar hamda fuqarolik jamiyatining institutlari tomonidan keyingi vaqtarda chet ellik shaxslardan pul mablag‘lari va mol-mulk olinishini kelishish tartibi ko‘plab tanqidlarga uchraganligini bayon qilgan. Shunga ko‘ra, chet ellik shaxslardan pul mablag‘lari va mol-mulk olinishini kelishishni pul mablag‘lari va mol-mulk olish haqida xabardor qilishga o‘zgartirish va mazkur jarayonni to‘liq elektron shaklga o‘tkazish taklif etilgan.

Tadqiqotchi NNT ni tugatish masalasini ilmiy-amaliy jihatdan tahlil qilib, bir qator muammolarni keltirib o‘tadi. Xususan, NNTni tugatish to‘g‘risida qaror qabul qilgan sud ko‘pincha amaliyatda tugatuvchi etib davlat organlari xodimlarini tayinlashi, tugatish jarayoni NNT ta’sischisi va rahbarlariga bog‘liqligi (ularda mavjud bo‘lgan muhr va shtamplar yo‘qligi, mol-mulki to‘g‘risidagi, debitor va kreditor qarzdorlar to‘g‘risidagi ma’lumotlar yo‘qligi, mavjud qarzdorliklarni to‘lash manbalari yo‘qligi va boshqalar) va aksariyat hollarda NNT tugatilayotgan paytda uning rahbari va kollegial organi mavjud bo‘lmasligi kabi muammolarning yechimi bo‘yicha takliflarni ilgari suradi.

Dissertatsiyaning to‘rtinchi bobи “**Nodavlat notijorat tashkilotlarining ijtimoiy-iqtisodiy masalalarni hal qilishdagi ishtirokini kengaytirish**” deb nomlanib, unda nodavlat notijorat tashkilotlarining BMT Barqaror rivojlanish maqsadlariga erishishdagi o‘rni, O‘zbekistonda ijtimoiy loyihalarni amalga oshirishda

nodavlat notijorat tashkilotlari ishtirokini kengaytirishning zamonaviy tendensiyalari, nodavlat notijorat tashkilotlari orqali o‘zini o‘zi tartibga solish mexanizmini amalga oshirishning istiqbollari tahlil qilingan.

BRMga erishish davlatlar, xususiy sektor, fuqarolik jamiyatni institutlaridan kuch va sarmoya talab qiladi. Barqaror rivojlanishning ijtimoiy maqsadlariga erishishda, ayniqsa fuqarolik jamiyatining roli o‘ta muhim sanalib, u bugungi kunda “uchinchi sektor” – ta’lim, fan, sog‘liqni saqlash, ekologiya, ijtimoiy himoya, ya’ni ijtimoiy sohada mahalliy jamoalarning fuqarolik tashabbuslariga asoslanadi.

Dissertant fikricha, amaliyot, davlat sharhlari har doim ham mamlakatlardagi ishlarning haqiqiy holatini aks ettirmasligidan kelib chiqib, Inson huquqlari sohasida muqobil hisobot berish jarayonining asosiy maqsadi hisoboti ko‘rib chiqilayotgan mamlakatda inson huquqlariga rioya etilishini ta’minalashdan iborat degan yondashuv ilgari surilgan.

Inson huquqlari bo‘yicha xalqaro konvensiyalarning O‘zbekiston Respublikasida bajarilishi bo‘yicha bugungi kunga qadar jami **119** ta xalqaro va milliy nodavlat notijorat tashkilotlari tomonidan muqobil ma’ruzalar BMTning tegishli qo‘mitalariga topshirilgan. Shundan **19 tasi** O‘zbekiston Respublikasi hududida faoliyat olib boruvchi NNT hisoblanadi. Tadqiqotchi fikricha, O‘zbekiston nodavlat notijorat tashkilotlari assotsiatsiyasi tarkibida tuzilgan “Ekspertlar guruhi”ga muqobil ma’ruzalarni tayyorlash metodikasini ishlab chiqish va NNTlarga doimiy ravishda ko‘mak berish vazifasini yuklatish lozim.

Tadqiqotchi fikricha, qonun bilan jamoatchilik nazoratini amalga oshirishning 8 ta shakllari belgilangan bo‘lsada, shundan 7 ta shaklining amalga oshirishning aniq mexanizmlari yoritilmagan. Shunga ko‘ra, “Jamoatchilik nazorati to‘g‘risida”gi Qonun 2¹-moddasiga “**jamoatchilik kuzatuv komissiyasi**”, “**jamoatchilik inspeksiyasi**” va “**jamoat inspektori**” institutlari kiritish taklif etiladi. Uning fikricha, “**Jamoat inspeksiyasi**” va “**jamoat inspektori**” institutlari kiritilishi natijasida davlat organlari va tashkilotlarida jamoatchilik nazorati doirasida tekshiruvlar o‘tkazish imkonini beradi.

D.Mur, E. Guseynov, S.Nemgirova, Sh. Yakubov, Ya. Allamov kabi olimlarning ijtimoiy loyihalarni amalga oshirishda nodavlat notijorat tashkilotlari ishtirokini kengaytirishga oid qarashlari tahlil qilinib, O‘zbekiston Respublikasida nodavlat notijorat tashkilotlarini nodavlat notijorat tashkilotlarini ijtimoiy-iqtisodiy masalalarni hal qilish hamda jamiyat rivojlanishiga qo‘sghan hissasini inobatga olgan holda ularning faoliyatini baholash mezonlari va metodologiyalarini ishlab chiqish taklif etiladi.

Tahlillar ko‘rsatmoqdaki, grant tushunchasi normativ-huquqiy hujjalarga qaraganda ko‘proq ilmiy sohada uchraydi. O‘zbekistonda grantga oid munosabatlar qisman tartibga solingan. O‘zbekiston qonunchiligidagi grantlarning umumiy tushunchasi ham, muhim xususiyatlari ham belgilanmagan. Bugungi kunda grantlar xayriyalarning alohida bir turi sifatida shaxsiy mablag‘lar hisobidan ham, davlat byudjeti hisobidan ham taqdim etilmoqda.

Tadqiqotchi fikricha, Oliy Majlisi huzurida Nodavlat notijorat tashkilotlarini va fuqarolik jamiyatining boshqa institutlarini qo‘llab-quvvatlash jamoat fondi huquqiy maqomi qonunchilik hujjalarda aniq belgilanmagan. Dissertant, mazkur

fondning huquqiy tabiatiga ko‘ra, Oliy Majlis huzuridagi jamoat fondini davlat tashkiloti sifatida tashkil qilish lozim deb xulosaga kelgan.

Tadqiqotchi tomonidan Parlament komissiyasi tomonidan pul mablag‘lari ajratish bo‘yicha faoliyatni tahlil qilinib, mamlakatimizda yuksak texnologiyani rivojlantirish va yoshlarni tabiiy bilimlarga qiziqishini uyg‘otish va bu yo‘nalishda tizimli ishlarni qilishni asosiy mezon sifatida belgilash taklif etilgan.

Maqsadsiz va noto‘g‘ri sarflangan **1 mlrd 118,5** mln so‘mlik davlat subsidiyasi, **172,9** mln so‘mlik ijtimoiy buyurtma, **238,9** mln so‘mlik davlat granti mablag‘lari monitoring natijalaridan kelib chiqib qaytarilgan.

Jamoat fondi faoliyatiga zamonaviy axborot-kommunikatsiya texnologiyalarini, shu jumladan loyihalarni hamda hisobotlarni elektron raqamli imzolardan foydalangan holda elektron shaklda qabul qilish, hujjatlar aylanmasini elektron tarzda yuritish bo‘yicha maxsus dasturiy mahsulotlarni yaratish va joriy etish masalalariga yetarli darajada e’tibor qaratilmagan. Tahlillar shuni ko‘rsatmoqdaki, bugungi kunda parlament komissiyasi grant mablag‘larining sarflanishi yuzasidan hisobotlarni qabul qilib oladi va o‘zi monitoring qiladi.

Bugungi kunda AQSHda 50 foizdan ortiq aholi qatlami ko‘ngillilik asosidagi ishlarda qatnashib keladi. Ko‘ngillilar mehnatining moliyaviy ekvivalenti 5 300 mlrd dollardan oshadi. Yaponiyada “Minsey inn” xayriya yordami tizimi yaratilgan bo‘lib, 3 300 dan ortiq volontyorlik markazlari faoliyat ko‘rsatadi. Buyuk Britaniyada volontyorlar markazi tashkil etilgan bo‘lib, o‘rta va yuqori sinf vakillari kambag‘allikka qarshi kurashish yo‘lida keng ravishda ijtimoiy ishlarga jalb qilingan. Germaniyada fuqarolar bir oy davomida o‘zining 15 soatdan ortiq vaqtini ko‘ngilli uyushma, loyiha va o‘zaro yordam guruhlariga bag‘ishlaydi. Mamlakatda 70 mingga yaqin notijorat tashkilotlari faoliyat yuritib, ularda volontyorlik huquqi asosida 2 milliondan ortiq fuqarolar ishlaydi.

Nodavlat notijorat tashkilotlariga davlat ko‘magi sifatida ajratilgan grantlar, subsidiya va ijtimoiy buyurtma mablag‘lari ishlatilishi hamda o‘z mol-mulki va pul mablag‘laridan foydalanishi jarayonining shaffofligini ta’minalash bo‘yicha “Openness of non-governmental non-profit organizations” – “Ochiqlik standarti”ni yanada takomillashtirish maqsadga muvofiq hisoblanadi.

Tadqiqotchi tomonidan R.Yakshilova, V. Davlyatov, D.Ashurov, S.Vasilyeva, I.Yershova, Ye.Parubin kabi olimlarning o‘zini o‘zi tartibga soluvchi tashkilotlarning tashkiliy huquqiy asoslariga oid tadqiqot ishlari tahlil qilinib, o‘zini o‘zi boshqaruvchi tashkilotlarga quyidagi mualliflik ta’rifini ilgari surishni taklif etgan:

“O‘zini o‘zi tartibga soluvchi tashkilot tovarlarni (ishlarni, xizmatlarni) ishlab chiqish sohasi yoki ishlab chiqarilgan tovarlar (ishlar, xizmatlar) bozori yagonaligidan kelib chiqib yoxud professional faoliyat subyektlarining muayyan turini birlashtirgan, ixtiyor yoki majburiy a’zolikka asoslangan, uyushma (ittifoq) shaklidagi yoki qonun hujjatlarida belgilangan boshqa tashkiliy-huquqiy shakldagi nodavlat notijorat tashkilotdir”.

Muallif fikricha, o‘zini o‘zi tartibga solish vakolati berilgan NNTning huquqiy maqomi qonun bilan belgilanishi masalaning yechimi hisoblanadi. Shu bois, O‘zbekiston Respublikasining “O‘zini o‘zi tartibga soluvchi tashkilotlari to‘g‘risida”gi qonuni loyihasini ishlab chiqish maqsadga muvofiq.

XULOSA

“O‘zbekistonda nodavlat notijorat tashkilotlari faoliyatining tashkiliy-huquqiy mexanizmini takomillashtirish” mavzusidagi tadqiqot ishi natijasida quyidagi ilmiy-amaliy taklif va tavsiyalar ishlab chiqildi:

I. Ilmiy-nazariy xulosalar

1.1. Konstitutsiyaviy huquq fanining ilmiy apparatiga oid nazariy qarashlarni yanada rivojlantirish maqsadida xalqaro tajriba va xalqaro huquqiy hujjatlarda belgilab berilgan yondashuvlardan kelib chiqqan holda, “Aralash iqtisodiyot” nazariyasiga muvofiq uchta sektor o‘rtasidagi nisbat tahlil etildi. Birinchi sektor – umumdavlat va munitsipal tashkilotlarini birlashtiradi. Ikkinci sektor - faoliyatining assosiy maqsadi sifatida foyda olishni ko‘zlagan biznes subyektlarini birlashtiradi. “Uchinchi sektor” nodavlat notijorat tashkilotlaridan iborat. Mazkur qarashning assosiy mazmuni jamiyatning uzviy birligini anglatadi va “Konstitutsiyaviy huquq”ning ilmiy-kategorial apparatini yanada boyitishga xizmat qiladi.

1.2. Milliy va xalqaro huquqiy amaliyot, ilmiy-nazariy yondashuvlardan kelib chiqib, “nodavlat notijorat tashkilotlari” tushunchasiga quyidagicha mualliflik ta’rifi berildi: **“Nodavlat notijorat tashkiloti bu – jismoniy va (yoki) yuridik shaxslar tomonidan ixtiyorilik asosida tashkil etilgan, assosiy maqsadi ijtimoiy foydali faoliyatga yo‘naltirilgan hamda olingan daromadlarni (foydani) o‘z qatnashchilari (a’zolari) o‘rtasida taqsimlamaydigan o‘zini o‘zi boshqaruvchi tashkiloti”**.

1.3. O‘zini o‘zi tartibga soluvchi tashkilotlari institutining huquqiy va ilmiy-nazariy asoslarini tahlil qilish asosida uning tushunchasini quyidagicha ifodalash mumkin: **“O‘zini o‘zi tartibga soluvchi tashkilot”** deganda, tovarlarni (*ishlarni, xizmatlarni*) ishlab chiqish sohasi yoki ishlab chiqarilgan tovarlar (*ishlar, xizmatlar*) bozori yagonaligidan kelib chiqib yoxud professional faoliyat subyektlarining muayyan turini birlashtirgan, ixtiyoriy yoki majburiy a’zolikga asoslangan, uyushma (ittifoq) shaklidagi yoki qonun hujjatlarida belgilangan boshqa tashkiliy-huquqiy shakldagi nodavlat notijorat tashkilotdir”.

1.4. Nodavlat notijorat tashkilotlari faoliyatining prinsiplari bo‘yicha quyidagi yondashuv ilgari suriladi: **qonuniylik, ixtiyorilik, o‘zini o‘zi boshqarish, ijtimoiy foydalilik, ochiqlik va shaffoflik, erkinlik, ijobiy va konstruktiv yondashuv prinsiplari**.

1.5. Nodavlat notijorat tashkilotlari sohasida mamlakatimizda amalga oshirilgan qonunchilik islohotlarining rivojlanish davri va xususiyatlarini tahlil qilgan holda ushbu jarayonni shartli ravishda uch bosqichga ajratish mumkin asoslantiridi: Birinchi bosqich 1991-yildan 2010-yilgacha, ikkinchi bosqich 2010-yildan 2017-yilgacha, uchinchi bosqich 2017-yildan hozirga qadar deb davrlashtirish mumkin.

1.6. **“Davlat ijtimoiy buyurtmasi”** tushunchasiga quyidagicha mualliflik ta’rifi berildi: **“Davlat ijtimoiy buyurtmasi bu – davlat organi va nodavlat notijorat tashkiloti o‘rtasida shartnomaga tuzish yo‘li bilan sotsial va ijtimoiy ahamiyatga**

molik loyihalarni amalga oshirish uchun ishlar bajarish yoki tadbirlar o‘tkazishga doir davlat topshirig‘idir”.

1.7. Davlat va NNT hamkorligini quyidagi to‘rtta modelga ajratish taklif etiladi: 1. “Bog‘bon modeli”ga ko‘ra, davlat NNTlarining ijtimoiy foydali faoliyatini moliyaviy qo‘llab-quvvatlaydi, mazkur sohani rivojlantirishga oid umumiy davlat siyosatini muvofiqlashtirib boradi. 2. “Sheriklik modeli”ga ko‘ra, davlat va nodavlat sektorning tenglik asosidagi muloqotiga asoslanadi. 3. “Ota-onा modeli” davlatning nodavlat notijorat tashkilotlarining faoliyati ustidan total nazorati bilan tavsiflanadi. 4. “Egiluvchan model” davlat va nodavlat notijorat tashkilotlari o‘zlarining salohiyati va imkoniyatlaridan ichki va tashqi maqsadlari yo‘lida o‘zaro foydalanadi, agar davlat NNTdan real tahdidni sezsa uning imkoniyatlari qonun yo‘li bilan cheklanadi.

1.8. Yangi O‘zbekiston sharoitida nodavlat notijorat tashkilotlarining funksiyalarini quyidagicha tasniflash taklif etiladi: *integratsiya, jamoatchilik nazorati, targ‘ibot, safarbarlik funksiyalari*.

1.9. Bir vaqtning o‘zida ham jismoniy, ham yuridik shaxslarnig ta’sischiligidagi ularning nodavlat notijorat tashkiloti bo‘lgan ittifoqi “Uyushma” tushunchasiga quyidagicha mualliflik ta’rifi berilgan: “Uyushma – jismoniy va yuridik shaxslar tomonidan ularning umumiy manfaatlarini ifodalash hamda himoya qilish, shuningdek yuridik shaxslar o‘zlarining faoliyatini muvofiqlashtirib borish uchun ijtimoiy foydali maqsadlarda tuzilgan, a’zolikka asoslangan nodavlat notijorat tashkiloti”.

10. Nodavlat notijorat tashkilotlarining faoliyatini davlat tomonidan qo‘llab-quvvatlash quyidagicha tasniflandi:

nodavlat notijorat tashkilotlarini mulkiy, axborot, maslahat, tashkiliy va o‘quv-uslubiy jihatdan qo‘llab-quvvatlash;

nodavlat notijorat tashkilotlarining davlat organlari va tashkilotlari bilan o‘zaro hamkorligini tashkil qilishga ko‘maklashish;

nodavlat notijorat tashkilotlarini moliyaviy qo‘llab-quvvatlash;

nodavlat notijorat tashkilotlariga moddiy yordam ko‘rsatayotgan yuridik va jismoniy shaxslarga soliqlar va yig‘imlarni to‘lash bo‘yicha O‘zbekiston Respublikasining Soliq kodeksiga muvofiq imtiyozlar berish.

II. Normativ-huquqiy hujjatlarni takomillashtirishga oid taklif va tavsiyalar

2.1. “Jamoat fondlari to‘g‘risida”gi Qonunning 25-moddasini quyidagi tahrirda bayon e’tish taklif qilinadi:

Fond tomonidan quyidagilar nazarda tutilgan har yilgi mol-mulkdan foydalanishi to‘g‘risidagi hisobot uning faoliyati auditorlik tekshiruvidan o‘tkazilgandan keyin o‘n besh kun ichida, lekin hisobot yilidan keyingi yilning 1-iyunidan kechiktirmasdan tegishli tartibda ro‘yxatdan o‘tkazilgan ommaviy axborot vositalarida e’lon qilinadi:

fond olgan ixtiyoriy xayriyalar to‘g‘risidagi ma’lumotlar;

fondning tadbirkorlik faoliyatidan olingan daromadlari (foydasi) to‘g‘risidagi ma’lumotlar;

boshqa kelib tushgan mablag'lar miqdori (turlari alohida ko'rsatilgan holda);

Fondga berilgan pul ko'rinishida bo'lмаган mol-mulklar to'g'risidagi ma'lumotlar;

xarajatlar umumiy summasi, fond faoliyatining turlari bo'yicha va ma'muriy xarajatlar bo'yicha alohida ko'rsatilgan holda;

pul ko'rinishida bo'lмаган mol-mulklar tasarrufi bo'yicha ma'lumotlar.

2.2. O'zbekiston Respublikasi Konstitutsiyasiga muvofiq davlat tomonidan jamoat birlashmalariga ijtimoiy hayotda ishtirok etish uchun teng huquqiy imkoniyatlar yaratib berishi shartligi, O'zbekiston Respublikasining qonunlari eng muhim va barqaror ijtimoiy munosabatlarni tartibga solishi, shuningdek, kasaba uyushmalari, siyosiy partiyalar yoki diniy tashkilotlar to'g'risidagi qonunlar shu turdag'i barcha subyektlarga teng imkoniyatlar yaratishidan kelib chiqib, tadbirkorlik faoliyati subyektlarini birlashtiruvchi nodavlat notijorat tashkilotlariga teng imkoniyat yaratish maqsadida "Savdo-sanoat palatalari to'g'risida"gi Qonuni tarzida qabul qilish maqsadga muvofiq.

In developed countries, the average share of the economy is 10-14 percent and the average 10 percent of the employed population belongs to the “non-governmental sector”². In addition, the geopolitical conflicts that continue in different parts of the world today, as well as the extent of economic and social damage, the post-pandemic conditions of COVID-19 compared to World War II, increase the need to use the potential and opportunities of the “non-governmental sector” again. THE MAIN CONTENT OF THE DISSERTATION

The introduction of the dissertation provides with information on the relevance and necessity of there search theme, the relevance of the research to the main priorities of the national science and technology development, the level of studying the problem, the relation of the dissertation theme to the scientific research work of higher education institution where the dissertation is prepared, the aim and tasks, object and subject, methods, scientific novelty and results of the research, reliability of the research results, scientific and practical significance of the research results, their implementation, the approbation, announcement of the results, structure and the volume of the dissertation.

The first chapter of the dissertation is entitled “**Theoretical-methodological aspects of the interpretation of the activity of non-governmental non-commercial organizations**”, the chapter analyzes the doctrinal views of scientists and leading legal schools, the concept of a non-governmental non-commercial organization and its constitutional-legal nature, the formation and development trends of non-governmental non-commercial organizations based on the periodization of human history, the stages of development of the legal bases related to the activity of the phenomenon.

The author has researched the theoretical and methodological aspects of the right of citizens to join public associations of scientists such as A. Forobi, G. Hegel, T. Hobbs, H. Odilkoriev, and the right of citizens to join public associations is a natural human instinct and puts forward the approach that in this process comes from the need to unite people's common goals and efforts and to decide on communication, which is considered the main factor of human civilization.

The researcher puts forward the following author's definition of the institution "civil society institutions": "Civil society institutions are self-governing democratic institutions which protect the rights and legal interests of individuals and legal entities, other democratic values, achieving social, cultural and educational goals, satisfaction of spiritual and all non-material needs, dealing with charitable activities that ensure the implementation and achievement of other socially useful results.

The Constitution of the Republic of Uzbekistan in the new edition, adopted by the nationwide referendum on April 30, 2023, gave constitutional status to the institutions of "civil society" and "non-commercial organizations".

According to the researcher, the entire legal system of our country will be modernized in the near future on the basis of these **constitutional provisions** of supervision and methodological importance. In this process, it is necessary to approach the legal acts aimed at regulating the activities of NGOs, strengthening their legal status, and further improving the organizational and legal mechanisms of their activities, with a serious and special responsibility.

The researcher analyzes the theory of "mixed economy" created by Albert Eberhard Friedrich Sheffle, and at the same time, the scientific and theoretical views of the scientists of Europe, the North, the CIS countries regarding the "third sector" phenomenon.

According to the author, during the period when the theory of "mixed economy" was developed, the state was at the center of social relations, and this theory does not meet today's requirements. The fact that the concepts of "virtual society" or "information society" are now being used instead of the usual society, the use of the concepts of "global civil society" in order to renounce the supremacy of states in international relations and give priority to human rights means that dividing society into 3 sectors is relative.

The researcher puts forward a view on the need to accelerate the creation of analytical and scientific-educational laboratories (think tanks) that scientifically and theoretically study civil society and constantly analyze its development, and to ensure their participation in the international rating of Analytical Centers.

Foreign views of L. Salomon, M. Carnea, Alex de Tocqueville, D. David and D. Djeri, A. Smith's theory of "Working society", as well as Institutions such as civil society institutions, the right to association and "traditional society" of scientists of our country, such as H Odilkoriyev, Sh Yakubov, Ya Ollamov, Dj Shirinov and D Kholmanova, were studied and their role in the formation of a non-governmental sector was scientifically-theoretically analyzed.

As a result of the research, right to association, the association of individuals with certain common goals and objectives will be established only after reaching a "certain mature stage" and puts forward the view that it served communication, which is considered the most important factor of human development.

According to the results of the survey, the public (total of 186 participants) was asked the question "Do you know NGOs?" 62% (116) of the participants answered "yes" when asked, and 38% (70) said that they did not know about them, but had heard about them, the researcher puts forward the approach that "about 1/3

of the participants in the survey are not aware of the main activities of this institution".

According to the author, the main reason for this is that the term "third sector", accepted as a standard in most developed countries, is used in different ways in national legislation and practice, such as "civil society institutions", "public organizations", "public associations", "non-governmental sector" and the fact that their differences and similarities are not clearly distinguished, and secondly, it indicates that the state cannot fully use the potential of civil society institutions in solving social-economic problems.

Having researched the opinions of scientists such as B. Latipov, S.I.Omonfonvan, V. Khukhlina, S.A. Bunin and A.A. Malayev, the researcher proposes to summarize the functions of non-governmental non-commercial organizations in the conditions of New Uzbekistan as follows: *functions such as integration, public control, promotion, mobilization.*

International standards reflected in the Charter of the UN, acts of the Council of Europe, national legal acts, as well as in the views of scientists such as L. Solomon, H. Anheyer, S. Sokolovsky, M. Lyons, H. Odilkoriyev, Sh. Yakubov, Sh. Nazarov, "non-governmental non-commercial organization" term was analyzed and the following definition of authorship was put forward: "A non-governmental non-commercial organization is a self-governing organization established voluntarily by individuals and (or) legal entities, which does not make income (profit) the main goal of its activity and does not distribute the received income (profit) among its participants (members)".

Based on the international legal standards and the experience of developed countries, as well as the views of a number of scientists (L. Salomon, Z. Ankhayer, Y. A. Zlobina, B. Latipov), the researcher analyzes the principles of the activity of non-governmental non-commercial organizations and puts forward his approach.

In recent years, analyzing major research (A.Bax-Mortensen, B.Lang and P. Montgomeri, J.Xan, K.Xalse, J. Bostok, R.Briz, R.Ridley-Braff and P.Krouser, J.Teyser and X. Liyang) on trends in increasing the role of the "third sector" in the life of society, it has been concluded that the commitment of NGOs to economic and social protection of the socially disadvantaged layer in the conditions of the digital market takes interaction between government, business and civil society institutions to a new level.

The researcher contributed to the creation of non-governmental non-commercial organizations by scientists such as T. Davis, T. Tweed, P. Willets, A. Kuruvila, V. Eberwein, B. Reynaldum, V. Tessur, Ye. G. Tarkhanova, H. Odilqariyev, Sh. Yakubov views on the subject have been researched, and the approach that motivates individuals to unite, that is their common interests, has been put forward. According to him, the interests of people united in the society become the interests of the social group. Of course, he puts forward the opinion that the rule that an individual cannot be prevented from becoming a member of other social groups as a member of a certain social group has become the most important principle of non-governmental non-commercial organizations.

The analysis shows that the term "public organization" is used in 22

normative legal acts of the Republic of Uzbekistan, in more than 200 cases in the form of “non-governmental non-commercial organizations”. In addition, as of February 2023, the concept of civil society institutions is used in more than 60 current normative legal acts of the Republic of Uzbekistan, of which 20 are codes and laws, 25 are decrees and acts of the President of the Republic of Uzbekistan, 13 are acts of the Cabinet of Ministers, and 4 one is departmental normative legal acts.

The researcher studied the evolution and development trends of non-governmental non-commercial organizations in Uzbekistan based on the following periods: The period of formation of the primitive seed-breeding community and property ownership (up to the 4th century AD), the Early Middle Ages (from the 5th century to the end of the 8th century), the period of colonialism and national renaissance (from the middle of the 19th century, from the time of the invasion of Tsarist Russia to the October coup of 1917), Soviet period (1917-1991).

The researcher puts forward the following approach, summarizing the ideas on the formation and development of civil society institutions presented in “Avesta”: firstly, the population actively participated in state administration; secondly, as a sign of civil society, it can be said that people engaged in general socially useful work; thirdly, women and men have equal rights; matters of public interest are dealt with by the Council of Elders.

The introduction of the system (“Vaqf”) of allocating certain property of individuals to the population and scientific institutions in need of social protection for charitable works was mentioned as a characteristic of the early Middle Ages.

Through the efforts of the progressives during the colonial and national renaissance, organizations such as the movement of intellectuals in the fields of education, enlightenment, culture, art, charity (“Klub islomiya” in 1917, “Mirvajul islom” in Kokand, “Ozod xalq” in Andijan, “Ravnaqul islom” in Kattakurgan, “Muayyan at-tolibiyin” in Khojand. Of these,” Shoroi Islamiya”) means that he began to enter the political arena.

According to the researcher, during the time of the former Soviet Union, the CPSU was recognized as the core and guiding force of the Soviet political system, and in practice became the driving force of the state mechanism.

The author analyzed the views of scientists such as L. Salomon and S.Sokolovsky, J. Khan, T. D. Matveeva, Y.V. Botnev, and Sh. Nazarov on determining the main mission of non-governmental non-commercial organizations, and based the approach not on the basis of the functions of the state institution, but on human rights, considers it appropriate to analyze from the perspective of interests and needs, and believes that the main mission of this phenomenon is to protect and assist the rights and legal interests of the individual.

According to the opinion expressed by many scholars, the approach that the main activity of a non-governmental non-commercial organization is the activity that corresponds to the goals of its establishment and is specified in the founding documents is far from the truth. Today, this limitation has a negative impact on the purposeful use of the potential of non-governmental non-commercial organizations in the context of various geopolitical conflicts or pandemics, and leads to the

limitation of the activity of a non-governmental non-commercial organization by its founding documents.

According to the dissertation, based on the needs of the society and the state, it is appropriate not to limit the activities of non-governmental non-commercial organizations by the founding documents, but to give them freedom based on the criteria of social utility.

Based on this, the researcher believes that it is necessary to include in the legislation a norm that a non-governmental non-commercial organization can engage in one or more types of activities that are not prohibited by law and are in accordance with the goals stipulated in its founding documents.

The analysis shows that in 1991, a total of 100 NGOs were operating in the country, while the total number of registered non-governmental non-commercial organizations and their registered divisions in Uzbekistan was 10,462 as of January 1, 2020, and 8,922 remains the same as of January 27, 2023. 671 of them are republic-level, and 187 are large republican non-governmental non-commercial organizations. In 2022, 301 non-governmental non-commercial organizations were terminated, while 382 were registered with the state. According to the researcher, the number of non-governmental non-commercial organizations has been decreasing for the last 3 years.

According to statistics, there are 1.4 million NGOs operating in the USA with a population of 337 million, and there is one NGO for every 240 inhabitants. Today, there are 1.2 million NGOs operating in France with a population of 67 million. That is, 55 residents correspond to one NGO. According to 2022 data, more than 60,000 NGOs will operate in South Korea, which has a population of 51 million. It shows that 772 residents correspond to one NGO, and 4.2 percent of the population is directly involved in the implementation of social initiatives.

The author, analyzing the development period and characteristics of the legislative reforms implemented in our country in the field of non-governmental non-commercial organizations, suggests conditionally dividing this process into three stages: The first stage is from 1991 to 2010, the second stage is from 2010 to 2017, and the third stage is from 2017 to now.

The Constitution of the Republic of Uzbekistan states that the basis of the principle of voluntariness in matters of membership of public associations is not established at the constitutional level, the principle of voluntariness is stated only in the matter of trade union membership (Article 73). According to the researcher, taking into account the situations in this field and the attention given to NGOs, it is required to define such an important principle as voluntary membership in non-governmental non-commercial organizations at the level of the constitutional norm.

The second chapter of the dissertation is entitled "**Issues of legal regulation of the organization of the activities of non-governmental non-commercial organizations**" and it analyzes the organizational and legal issues of establishing a non-governmental non-commercial organization, its organizational and legal forms, and its state registration.

The researcher, researching the opinions of legal scholars D Kholmanova and Dj Shirinov on the organizational and legal foundations of the NGO, puts forward the approach that although the NGO is considered to be formed from the moment of state registration, but the process of its establishment is also a component of the legal foundations of these NGOs.

The dissertation is based on the fact that in recent years there has been a tendency to reduce state influence to a minimum in the organization and operation of non-commercial organizations. This point of view is given by the results of studies conducted in developed countries over the past five years (M.Lyons, L.Salomon, H.Ankhayer, Sh.Yakubov) analyzes his demonstration, noting that in the world experience, the tendency to form and develop the organizational and legal basis of NGOs is observed, not politically, but economically.

According to the analysis, the organizational and legal forms of 8,922 (as of January 1, 2023) NGOs operating in Uzbekistan are as follows:

- public associations 7,173;
- institutions 713;
- public funds 555;
- NGOs of other organizational and legal form (Association, union) 481.

In establishing an NGO, initiating group members are required to focus on the following issues:

first of all, the organizational and legal forms of non-commercial organizations differ from each other in the objectives of the activity, the composition of the participants, the principles of membership, the formation and disposal of property, the management and control system, other circumstances;

secondly, an NGO, regardless of its organizational and legal form, is registered with the judicial authorities based on the principle of territorial subordination;

thirdly, the words “center”, “community”, “committee” and similar words in the name of the NGO are not considered organizational-legal forms of the NGO, this also applies to the concepts of “ecological”, “children”, “youth”, etc., which apply to their activities;

fourthly, the word “sponsorship” in the name of the NGO does not indicate its organizational and legal form, because it is a special status that applies only to the sponsoring organization.

During the interviews with representatives of non-governmental non-commercial organizations, it became clear that most non-governmental non-commercial organizations, when they are being founded, have difficulty in formalizing the founding documents, choosing the main areas of activity of the NGO, and knowing the requirements for the founders.

Based on the importance of the role of the National Association of non-governmental organizations of Uzbekistan (NANGOU) in the development of social partnership, the goal is to develop a strategy for further improving the position of non-governmental non-commercial organizations in the life of the state and society in Uzbekistan, and to introduce the practice of providing NANGOU founders with methodological and legal support at the stage of the creation of NGOs.

The author analyzed the judicial practice of state registration of non-governmental non-commercial organizations and noted that the refusal of state registration by administrative courts on the basis of shortcomings in the charter and other constituent documents is carried out in accordance with the law.

The researcher put forward an approach on the expediency of the priority of the Law of the Republic of Uzbekistan "On Administrative Procedures" when considering disputes related to the state registration of non-governmental non-commercial organizations in the conduct of administrative court cases.

According to the researcher, the creation of non-governmental non-commercial organizations by the state as the sole initiator or founder leads to a restriction of the rights of other interested parties.

Based on the research of the dissertation, it was found that there are more than 60 normative legal acts relating to the creation of a particular non-governmental non-commercial organization. For example, the non-governmental non-commercial organization "Chamber of Commerce and Industry" was established on the basis of the law "On the Chamber of Commerce and Industry of the Republic of Uzbekistan". There is also a practice of establishing non-governmental non-commercial organizations with the minutes of selector meetings under the President of the Republic of Uzbekistan.

According to the author, non-governmental non-commercial organizations established by the state initiative are used with the adjective "hybrid", "quasi-state", "GoNGO", "artificial". According to the researcher, in practice, judicial bodies provide legal assistance in drawing up the founding documents of NGOs of this type, and similar situations have a negative impact on the principle of equality in the establishment of non-governmental, non-commercial organizations.

The following main features of the GoNGO institute operating in Uzbekistan today can be distinguished by the researcher:

firstly, this institute is established by state initiative (legal or non-legal form); **secondly**, although the formation is independent of the state, the members of the supreme governing body (collegiate body) of these institutions in most cases consist of officials of state bodies; **thirdly**, recurring functions arise between these institutions and state bodies; **fourthly**, in the result of state financing of state bodies, accountability arises; **fifth**, as a result of the delimitation of the possibility of creating another independent non-commercial organization in this direction, this leads to the fact that the Institute in question has a monopoly position.

According to the author, the fact that the law on the Chamber of commerce and industry of the Republic of Uzbekistan defines the legal status of only one organization ensures compliance with the rights and legitimate interests of State NGOs "in accordance with Article 72 of the Constitution of the Republic of Uzbekistan, creates equal legal opportunities for them to participate in the life of society", Article 9 of the Law "On Normative Legal Acts", "The Laws of the Republic of Uzbekistan regulate the most important and stable public relations", Article 2 of the Law "On Non-Governmental Non-Commercial Organizations" is considered contrary to the provisions on "NGO organizations by

individuals and (or) legal entities on a voluntary basis", as well as the constitutional and legal nature of NGOs.

In the opinion of the author, based on the fact that the legislation on trade unions, political parties or religious organizations creates equal opportunities for all subjects of this type, it is appropriate to adopt the Law "On Chambers of Commerce and Industry" and create equal opportunities for non-governmental non-commercial organizations that unite subjects of entrepreneurial activity.

Based on the legal status of public associations, the dissertation distinguishes the following characteristics of them:

firstly, the initiative of at least 10 citizens of the Republic of Uzbekistan who have reached the age of 18 is required to create and state register a public association, while foreign citizens and stateless persons can become members of any public associations except political parties; secondly, citizens can voluntarily form and become members of public associations, but in the cases stipulated by the charters, collective members (labor unions, public councils, etc.) may be collective members of public associations that are not considered legal entities; thirdly, all members of the public association, regardless of their status and position in the public association, have the same right and have the same obligations in making decisions and managing property; fourthly, the payment of entrance and membership fees by the participants of public associations is not considered a mandatory requirement, the participation of a citizen in the activities of a public association and the payment of a membership fee cannot be the basis for limiting his rights or establishing an advantage.

Based on the author's definition of a public fund, the following distinctive features can be distinguished: **firstly**, they belong to non-commercial organizations, but are not considered membership organizations; **secondly**, it can be established by both natural and (or) legal entities; **thirdly**, they must form their assets in order to fulfill the purposes of the charter; **fourthly**, the property given to the public fund by the founders is considered the property of the fund and is used for the implementation of the goals specified in its charter, it cannot be distributed among the founders and used as another way to ensure the fulfillment of collateral or obligations, as well as for the issuance of loans; **fifthly**, the public fund must publish an annual report on the use of its funds and other assets and conduct an annual audit of its activities; **sixthly**, the founders are not responsible for the obligations of the fund, and the fund is not responsible for the obligations of the founders; **seventhly**, the fund cannot be liquidated by the decision of the founders, only the court has such a right according to the application of the interested parties; **Eighthly**, the legislation prohibits the conclusion of transactions with persons related to the fund if they are carried out on slightly more favorable terms than with persons not related to the fund.

The dissertator analyzes A. Nayam, A. Zimmer, T. Brandsen, V. Pestoff, S. Phillips, S. Smith, Sh. Yakubov, D. Kholmanova, J. Shirinov on the organizational and legal forms of NGOs, the development of physical culture and sports, meeting the spiritual and other non-material needs of citizens, protecting the rights and legitimate interests of citizens, resolving disputes, providing legal assistance, as

well as providing charitable assistance and achieving other goals, it is shown that they enter into equal relations with state NGOs as social partners.

The dissertator proposes to strengthen the definition of organizational and legal forms of non-governmental non-commercial organizations as a system of organizational and legal conditions that they must comply with in order to regulate the activities of NGOs based on the general legal theory.

The author notes that organizational and legal forms of NGOs at the legislative level are mainly found in the CIS countries, and setting “limits” to the activities of non-governmental non-commercial organizations based on organizational and legal forms limits the freedom of activity of this institution. This point of view is confirmed by the research results of L. Salomon, H. Anhayer, N. Kollek.

According to the researcher, associations of commercial organizations registered by state service centers correspond to the legal nature of a non-governmental non-commercial organization.

In addition, the legal acts do not provide for the organizational and legal form of a legal entity based on membership, which is created to represent and protect the common interests of both legal entities and individuals at the same time, as well as to coordinate their activities. This creates difficulties for legal entities and individuals to unite by becoming members in order to represent and protect their common interests. In practice, both legal entities and individuals are forming a legal entity based on membership, which is formed in order to express and protect the common interests of individuals, as well as to coordinate their activities.

The author proposes to introduce amendments and additions to the Law of the Republic of Uzbekistan “On Non-governmental Non-commercial Organizations” on the inclusion of associations of commercial organizations in the form of non-governmental non-commercial organizations and to expand the concept of associations (unions).

The analysis shows that there are differences between the organizational and legal forms of non-governmental non-commercial organizations in state registration, the terms of consideration of applications for their state registration, requirements for founders, the amount of state duty, etc.

The researcher analyzed the studies of legal scholars L. Khvan and Zh.N. Nematov on administrative procedures, the “principle of verification” regarding the decision to refuse state registration of a non-governmental non-commercial organization, providing the applicant with the opportunity and time to correct the shortcomings in the application, all cases related to providing NGOs with the opportunity to express their opinions, suggestions and recommendations on providing the necessary assistance to NGOs in accordance with the law.

The author notes that the founders or initiators of NGOs propose to implement a system of real-time information on the stage of the process of state registration of non-governmental non-commercial organizations through the “E-ngo” platform. In addition to preventing violations of administrative procedures,

this will lead to the transparency of the process of receiving an administrative act by an interested person.

Non-governmental non-commercial organizations with state registration approved by the Resolution of the Cabinet of Ministers No. 57, March 10, 2014, which is a document in accordance with the Law on non-accounting and non-refund of the state fee paid for state registration of non-governmental non-commercial organizations three months after the rejection of the application for registration of a public organization, the provision of paragraph 27 of the regulation on the transfer procedure is contrary to the rights of individuals in the law "On State Duty" and the law.

According to the researcher, the state duty is collected by the judicial authorities not for considering the application for state registration of non-governmental non-commercial organizations, but for the state registration of non-governmental non-commercial organizations.

Requirements for the name of a legal entity are fully and comprehensively reflected in the Law "On Company Names". Accordingly, it is appropriate to apply the requirements of the Law "On Company Names" to NGOs as well.

The researcher puts forward the approach that it is necessary to establish clear criteria to avoid situations of different interpretations, based on the ambiguities created by the sentence "if it aims to attack the health and morals of citizens" during the state registration of sports federations without rules by the judicial authorities.

The third chapter of the dissertation is entitled "Procedures of the activities of non-governmental non-commercial organizations", the chapter analyzes the legal regulation of the implementation of the activities (goals) of non-governmental non-commercial organizations, the issues of financial support of its activities, and the legal grounds for terminating its activities.

Within the framework of this chapter, the dissertation has justified the fact that in recent years, the main focus on the liberalization of the organizational and legal frameworks of non-governmental non-commercial organizations is the tendency to reduce the influence of the state to a minimum level in their organization and operation.

The author proposes to divide state and NGO cooperation into 4 models ("Gardener model", "Partnership model", "Parent model", "Flexible model") during the analysis of research on the regulation of mutual relations between NGOs and state bodies (D.Mullins and V.Miligan, K.A. Cherepov, Sh.Yakubov, K. Anxayer, S. Sokolovski, S. Topler).

According to the dissertation, it is necessary to develop and adopt the concept of "Civil Society in New Uzbekistan – 2030" for the purpose of state registration of non-governmental non-commercial organizations and their symbols, notification of planned events, and liberalization of legal regulation of receiving foreign funds.

Although the procedure for notification of planned activities of non-governmental non-commercial organizations is determined for approval by the Ministry of Justice, the approval of two administrative regulations in the field of

non-governmental non-commercial organizations, one by the Ministry and one by the Cabinet of Ministers, is both systemic and in terms of equal protection of the rights of persons participating in administrative and legal procedures requires rethinking both in terms of organizing digital events.

In 2021, the state will double the amount of support to civil society institutions compared to 2020, to 75.8 billion soum was delivered to soum.

The author, having researched the legal nature of BONGO (Business-organized NGOs) of scientists such as D. Lewis, N. Kanji and N. Temudo, believes that these associations should be considered non-governmental non-commercial organizations.

According to the author, the regulation on the procedure for notification of the planned events of non-governmental non-commercial organizations specifies the “Procedure for consideration of the notification” (Chapter 3) (Ministries, state committees and agencies, if they are authorized to adopt relevant normative legal acts or to legally regulate social relations with normative legal acts, decrees and decisions of the President of the Republic of Uzbekistan, decisions of the Cabinet of Ministers of the Republic of Uzbekistan, normative legal acts are adopted can do), which is not the subject of these procedures and contradicts Article 14 of the Law on “Normative Legal Acts”. Accordingly, this section is proposed to be repealed.

In the conducted survey, when asked “Give information about the source of funding of your non-governmental non-commercial organization”, 31% of the respondents said – “We receive funds from the budget of the Republic – grants and subsidies”; 20 percent as “provincial budget – preferential (or indiscriminate) lease of property, subsidies and grants”; 22 percent – “from grants of the parliamentary commission or other republic (organizations) and grants from foreign funds (organizations)”; 15 percent as “membership fees”; 12 percent answered “from donations of legal entities and individuals”.

Analysis shows that today most of the activities of non-governmental non-commercial organizations are conducted in electronic systems and online. However, the current procedure of informing about the planned events of non-governmental non-commercial organizations does not take into account this objective necessity. Accordingly, the researcher suggested introducing a legal mechanism that would allow for easy changes to the street and house of the event, the day and time of the event, and to conduct online events.

Studies show that the legislation does not have clear norms about what provisions should be in the charter of a separate unit that is considered a legal entity. Accordingly, in the charter of its divisions, its name, the area where it carries out its activities; structure and governing bodies, scope of authority of governing bodies and the order of their formation, terms of their authority, location of permanent governing body; property management rights; it is proposed to introduce other provisions established by the legislation regulating the activities of the division, which are not recorded in the charter of the non-governmental non-commercial organization.

Based on the interviews conducted with non-governmental non-commercial organizations, it was noted that NGOs face difficulties and obstacles in conducting their activities as a result of violation of inspection deadlines, sequential and unsystematic implementation of inspections and studies by supervisory bodies (justice, tax, accounting chamber, etc.).

According to the author, in order to prevent the repetition of inspections and reduce the burden of excessive inspection, all supervisory authorities should carry out the simultaneous conduct of planned control activities (examination, monitoring and inspection) in NGOs that have a registration authority on the NGO Electronic Platform.

According to the researcher, according to the current legislation, the collegial management bodies of non-governmental non-commercial organizations and the activities of the Audit Commission are not fully regulated, which causes various conflicting issues in the management of NGO property. Therefore, the Law of the Republic of Uzbekistan "On Non-Governmental Non-Commercial Organizations" emphasizes the need to regulate the legal status of collegial governing bodies and the Audit Commission.

Article 58 of the Tax Code stipulates that non-commercial organizations should not have the purpose of obtaining income and should not distribute income or property among their participants (members), which is incompatible with the legal nature of these organizations defined in Article 2 of the Law "On Non-Governmental Non-Commercial Organizations". Non-commercial organizations cannot be defined as having no profit motive at all. Therefore, in defining this concept, the researcher puts forward the approach of "not making income (profit) the main goal of its activity" based on the legal nature of the NGO.

Based on the analysis, the researcher stated that international experts, international organizations and institutions of civil society have recently criticized the procedure for accepting money and property from foreign persons. Accordingly, it is proposed to change the agreement on the receipt of funds and property from foreign persons to the notification of the receipt of funds and property and to transfer this process to a fully electronic form.

The researcher analyzes the issue of termination of the NGO from a scientific and practical point of view and raises a number of problems. In particular, the court that made the decision to liquidate an NGO often in practice appoints employees of state bodies as liquidators, the liquidation process depends on the founder and leaders of the NGO (they do not have seals and stamps, lack of information about assets, debtors and creditors, repayment of existing debts, lack of funds, etc.), and in most cases puts forward proposals for solving such problems as the absence of its leader and collegial body at the time of the liquidation of a public organization.

The fourth chapter of the dissertation is entitled "**Expanding the participation of non-governmental non-commercial organizations in solving socio-economic issues**", which reveals the role of non-governmental non-commercial organizations in achieving the UN Sustainable Development Goals, current trends in expanding the participation of non-governmental non-commercial

organizations in the implementation of social projects in Uzbekistan, self-regulation through non-governmental non-commercial organizations are analyzed the prospects for the implementation of the mechanism of mutual settlements.

Achieving the SDG will require efforts and investment from states, the private sector, and civil society institutions. In achieving the social goals of sustainable development, the role of civil society is especially important, and today it is based on civil initiatives of local communities in the “third sector” – education, science, health, ecology, social protection, that is, in the social sphere.

According to the dissertation, based on the fact that the practice of state reviews does not always reflect the real state of affairs in countries, the main goal of the alternative reporting process in the field of human rights is to ensure that human rights are respected in the country whose report is being considered.

To date, a total of 119 international and national non-governmental non-commercial organizations have submitted alternative reports to the relevant UN committees on the implementation of international conventions on human rights in the Republic of Uzbekistan. 19 of them are non-governmental non-commercial organizations operating in the territory of the Republic of Uzbekistan. According to the researcher, the “Group of Experts” formed within the Association of Non-Governmental Non-Commercial Organizations of Uzbekistan should be assigned the task of developing a methodology for preparing alternative reports and continuously providing assistance to NGOs.

According to the researcher, although the law defines 8 forms of public control, the exact mechanisms of implementation of 7 forms are not explained. Accordingly, it is proposed to include the institutions of “**public monitoring commission**”, “**public inspection**” and “**public inspector**” in Article **2¹** of the Law “**On Public Control**”. In his opinion, as a result of the introduction of the “Public Inspection” and “Public Inspector” institutes, it will be possible to carry out inspections within the framework of public control in state bodies and organizations.

Analyzed the views of such scientists as D. Mur, E. Huseynov, S. Nemgirova, Sh. Yakubov, Ya. Allamov, on expanding the participation of non-governmental non-commercial organizations in the implementation of social projects, the use of analyzed non-governmental non-commercial organizations in the Republic of Uzbekistan to solve socio-economic issues and the development of society, it was proposed to develop criteria and methods for evaluating their activities, taking into account their contribution.

The analysis shows that the concept of grant is more common in the scientific field than in normative legal acts. Grant relations are partially regulated in Uzbekistan. The legislation of Uzbekistan does not define the general concept of grants and their important features. Today, grants are provided as a special type of donations both from personal funds and from the state budget.

According to the researcher, the legal status of the public fund for the support of non-governmental non-commercial organizations and other institutions of civil society under the Oliy Majlis is not clearly defined in the legislative acts.

The dissertation concluded that according to the legal nature of this fund, it is necessary to organize the public fund under the Oliy Majlis as a state organization.

The researcher analyzed the activities of the Parliamentary Commission on the allocation of funds and proposed to set as the main criteria the development of high technology in our country and the interest of young people in natural knowledge and systematic work in this direction.

1 billion 118.5 million soums of state subsidy, **172.9** million soums of social orders, and **238.9** million soums of state grants, which were purposelessly and incorrectly spent, were returned based on the monitoring results.

Insufficient attention is paid to the activities of the public fund, including the creation and implementation of special software products for the electronic acceptance of projects and reports using an electronic digital signature, electronic document management. Analyzes show that today the parliamentary commission receives reports on the use of grant funds and monitors them.

Today, more than 50 percent of the population in the United States participates in volunteer work. The financial equivalent of volunteer labor exceeds 5,300 billion dollars. In Japan, the “Minsey inn” charity support system was created, and more than 3,300 volunteer centers operate. In Great Britain, a volunteer center was established, and representatives of the middle and upper classes were widely involved in social work to fight against poverty. In Germany, citizens dedicate more than 15 hours of their time in a month to volunteer associations, projects and mutual aid groups. About 70,000 non-commercial organizations operate in the country, and more than 2 million citizens work in them on the basis of the right to volunteer.

It is considered appropriate to further improve the “Openness of non-governmental non-commercial organizations” – “Openness Standard” in order to ensure the transparency of the use of grants, subsidies and social order funds allocated to non-governmental non-commercial organizations as state support, as well as the use of their own property and funds.

The researcher analyzed the studies of such scientists as R. Yakshilova, V. Davlyatov, D. Ashurov, S. Vasilyeva, I. Ershova, E. Parubin on the organizational and legal foundations of self-regulatory organizations, and proposed to put forward the following definition of authorship for self-regulatory organizations achieved:

“Self-regulatory organization based on the unity of the field of development of goods (works, services) or market of produced goods (works, services) or uniting a certain type of professional activity subjects, based on voluntary or compulsory membership, in the form of an association (union) or in normative legal acts is a non-governmental non-commercial organization of another organizational and legal form”.

According to the author, the legal status of non-governmental non-commercial organizations, which are empowered to self-regulate, is determined by law. Therefore, it is appropriate to develop the draft law of the Republic of Uzbekistan “On Self-Regulatory Organizations”.

CONCLUSION

As a result of the research work on the topic “Improving the organizational and legal mechanisms of the activities of non-governmental, non-commercial organizations in Uzbekistan”, the following scientific and practical proposals and recommendations were developed:

I. Scientific and theoretical conclusions

1.1. In order to further develop the theoretical views of the scientific apparatus of constitutional law science based on international experience and approaches defined in international legal acts, the ratio between the three sectors was analyzed in accordance with the theory of “mixed economy”. The first sector unites state and municipal organizations. The second sector unites business entities that aim to make profit as the main goal of their activity. The “third sector” consists of non-governmental, non-commercial organizations. The main content of this view is the integral unity of society, which serves to further enrich the scientific-categorical apparatus of “Constitutional law”.

1.2. According to the national and international legal practice and scientific-theoretical approaches, the concept of “non-governmental non-commercial organizations” was given definition by the author as follows: “A non-governmental non-commercial organization is **a voluntary organization established by individuals and legal entities, the main purpose of which is directed to socially useful activities, and a self-administrative organization that does not distribute the received income (profit) among its participants (members)**.

1.3. Based on the analysis of the legal and scientific-theoretical basises of the Institute of self-regulatory organizations, its concept can be expressed as follows: “**Self-regulatory organization**” means the sphere of development of goods (works, services) or the unity of the market of manufactured goods (works, services). It is a non-governmental non-commercial organization based on voluntary or compulsory membership, in the form of an association (union) or in another organizational and legal mechanisms established by law.

1.4. The following approach to the principles of the activity of non-governmental non-commercial organizations is put forward: **the principles of legality, voluntariness, self-management, social utility, openness and transparency, freedom, positive and constructive approach**.

1.5. It is justified that the analyzing the period of development and characteristics of legislative reforms implemented in our country in the sphere of non-governmental non-commercial organizations, this process can be conditionally divided into three stages: The first stage – from 1991 to 2010, the second stage – from 2010 to 2017, the third stage – from 2017 to now.

1.6. The author defined the notion of “*state social order*” as follows: “*A state social order is a state task for the performance of works or carrying out activities for the implementation of socially and socially significant projects by concluding an agreement between a state body and a non-governmental non-profit organization.*”.

1.7. It is proposed that to divide state and NGO cooperation into the following four models: 1. According to the “Gardener Model”, the state financially supports the socially useful activities of NGOs and coordinates the general state policy on the development of this sector. 2. According to the “Partnership Model”, it is based on an equal dialogue between the state and the non-governmental sector. 3. The “Parental model” is characterized by the state’s total control over the activities of non-governmental non-commercial organizations. 4. “Flexible model” states and non-governmental non-commercial organizations mutually use their potential and capabilities for internal and external goals; if the state perceives a real threat from NGOs, its capabilities are limited by law.

1.8. In the conditions of the new Uzbekistan, it is proposed to classify the functions of non-governmental non-commercial organizations as follows: *functions of integration, public control, promotion, and mobilization*.

1.9. At the same time, the union which is a non-governmental non-commercial organization founded by both individuals and legal entities, it is given definition of the notion of “association” by the author as follows: “*Association is a social organization by individuals and legal entities to express and protect their common interests, as well as for legal entities to coordinate their activities, a non-commercial, membership-based non-commercial organization*”.

1.10. State support for the activities of non-governmental non-profit organizations was classified as follows:

property, information, consulting, organizational and educational support for non-profit organizations;

assistance in organizing the interaction of non-profit organizations with government agencies and organizations;

financial support for NGOs;

to provide benefits to legal entities and individuals providing financial assistance to non-profit organizations in accordance with the Tax Code of the Republic of Uzbekistan for the payment of taxes and fees.

II. Suggestions and recommendations for further improving the normative legal base:

2.1. Article 25 of the Law “On Public Funds” should be supplemented as follows:

The annual report on the use of assets provided by the fund shall be published in duly registered mass media within fifteen days after the audit of its activities but no later than June 1 of the year following the reporting year:

information on voluntary donations received by the fund;

information on the fund’s income (profit) from business activities;

amount of other funds received (specifying the types separately);

information on non-monetary assets given to the fund;

total amount of expenses, by the types of fund activities and by the administrative expenses, with a separate indication;

information on the disposal of non-monetary assets.

2.2. In accordance with the Constitution of the Republic of Uzbekistan, the state should create equal legal opportunities for public associations to participate in social life. The laws of the Republic of Uzbekistan regulate the most important and stable social relations, as well as the laws on trade unions, political parties and religious organizations, which provide equal opportunities to all subjects of this type. Based on its creation, it is appropriate to adopt the Law of "On Chambers of Commerce and Industry" in order to create equal opportunities for non-governmental non-commercial organizations uniting business entities.

2.3. It is proposed that the Law of the Republic of Uzbekistan "On Non-governmental Non-commercial Organizations" to include the following norms on collegial administrative bodies of non-governmental non-commercial organizations:

The resolutions of collegial administrative bodies are formalized in the form of protocol of their meetings. The protocols of the meeting are signed by the chairman and secretary of the meeting, as well as by the members of the enumeration commission when ten or more people participate in the meeting.

The resolution of the meeting of the collegial administrative bodies indicate as follows:

the time and place of the meeting;

the total number of participants entitled to vote at the meeting;

the number of participants with the right to vote who attended the meeting;

the information on the chairman and secretary of the meeting;

the composition of the enumeration commission (when ten or more people participate in the meeting of the administrative body);

the main content of the reports, the issues put to the vote and the results of voting on them, decisions made at the meeting.

If the charter of the non-governmental non-commercial organization does not provide for special provisions, the resolutions of the collegial administrative bodies shall be adopted by absentee voting (by poll) without holding meetings (the members of the administrative body are not present together). Such voting may be done by the exchange of documents by mail, telegraph, teletype, telephone, electronic communication, or any other means of communication that ensures the accuracy of the messages transmitted and received and their confirmation by documents.

When making resolution by voting, all members of the relevant administrative body should be notified of the agenda with its latest changes, the deadline for voting and the opportunity to get acquainted with the necessary information and materials before the start of voting.

If the charter of a non-governmental non-commercial organization does not provide for a higher number of votes for decision-making, the resolution of the meeting of collegial administrative bodies, as a rule, adopted by the majority of votes of the total number of participants who have the right to vote at this meeting.

When making resolutions by the collegial administrative bodies, the participation of other persons instead of the persons having the right to vote in these bodies shall be carried out as provided for in the founding acts of the non-

governmental non-commercial organization and in accordance with the procedure established in the founding acts.

2.4. It is proposed that the Law of the Republic of Uzbekistan “On Non-governmental Non-commercial Organizations” to include the following norms on the Audit Commission of Non-governmental Non-commercial Organizations:

Auditing of the financial activity of the non-governmental non-commercial organization, as well as the correct spending of funds and the purposeful use of its assets, it is carried out annually or during other periods according to the charter.

According to the resolution of the higher body of the non-governmental non-commercial organization, the inspection may be carried out by the inspection commission during the periods not provided for in the charter.

The officials of the non-governmental non-commercial organization must submit documents on the organization’s financial activities to the organization’s audit commission at its request.

Based on the results of the audit of the financial activities of the non-governmental non-commercial organization, the audit commission of the organization prepares a conclusion that includes as follows:

assessment of the reliability of information in reports and other financial documents;

information on cases of violation of accounting and financial reporting procedures;

recommendations on the elimination of identified violations as well as proposals on increasing the efficiency of the financial activity of a non-governmental, non-commercial organization.

2.5. In order to liberalize administrative procedures related to the activities of international and foreign NGOs, according to section 18 of the Orders on the procedure for state registration of non-governmental non-commercial organizations, their representative offices and branches are registered for state registration. It is proposed that to cancel the requirement to submit a declaration on the sources of financing the activities of the representative office and branch to the executive body.

2.6. It is proposed to exclude the norm of non-applicability to non-governmental non-commercial organizations implementing in the social sphere as defined in Article 318 of the Tax Code.

2.7. Since the meaning of **the notion of “sponsorship (sponsorship activity)”** in the Law **“On Sponsorship”** is synonymous with the notion of “charitable activity”, in order to prevent various ambiguities in the practice of applying the law, **“sponsored charity” in the sphere legislation is proposed to replace the term with the term “charity”**.

2.8. In order to prevent unnecessary hassles and bureaucratic obstacles in the liquidation of non-governmental non-commercial organizations has been proposed to remove the requirement for the approval of the liquidation balance by the higher body of the non-governmental non-commercial organization from the regulation on the procedure for liquidation of non-governmental non-commercial organizations approved by the Resolution of the Cabinet of Ministers on January 15, 2015, No. 5.

2.9. It is proposed to supplement the Law of the Republic of Uzbekistan "On Non-governmental Non-commercial Organizations" with the following norm:

Article 28¹. Transactions concluded as a result of interest in a non-governmental non-commercial organization

Based on the purpose of this law, the transactions made by the head of the non-governmental non-commercial organization, his deputy, persons who can act on behalf of the non-governmental non-commercial organization, members of the management or control bodies of the non-governmental non-commercial organization and other legal or physical persons regarding the non-governmental non-commercial organization are concluded as a result of interest in the following cases:

If these persons entered into labor relations with legal or physical persons or organizations;

If these persons are founders, participants or creditors of legal entities or organizations,

If these persons entered into a close family relationship with these persons;

If legal or physical persons or organizations are sponsors of a non-governmental non-commercial organization, their affiliates.

An interested person should observe the interests of the non-governmental non-commercial organization, as well as its activity goals and should not use the opportunities of the non-governmental non-commercial organization for malicious purposes that are not provided for in the founding documents of the non-governmental non-commercial organization.

The non-governmental non-commercial organization must submit information on the transactions concluded as a result of interest in the form approved by the Ministry of Justice of the Republic of Uzbekistan to the registering body by February 1 of each year as attachments to the reports.

2.10. In order to simplify the notification procedure for the organization of various events (conferences, seminars, trainings, meetings, actions, roundtables, meetings, symposiums, and other forms) by NGOs, they organize the gathering of individuals in the territory of the Republic of Uzbekistan or a foreign country, **including online**. It is proposed that to make an additional entry on the registration of the event for a non-governmental non-commercial organization.

2.11. Due to the uncertainty regarding the application of tax benefits to branches and representative offices of a non-commercial organization with the status of a legal entity, it is proposed to state Article 58 of the Tax Code in the following version:

"A legal entity or its representative office and branch with the status of a legal entity, which is registered in the manner and form prescribed by law and does not make income (profit) the main goal of its activity and does not distribute the received income (profit) among its participants (members) is recognized as a non-commercial organization".

ВВЕДЕНИЕ (Аннотация докторской диссертации)

Целью исследования является разработка предложений и рекомендаций по совершенствованию организационно-правового механизма деятельности негосударственных некоммерческих организаций в Республике Узбекистан.

Объектом исследования является система общественно-правовых отношений, возникающих в процессе организационно-правового регулирования деятельности негосударственных некоммерческих организаций в Республике Узбекистан.

Научная новизна исследования заключается в следующем:

обоснована необходимость закрепления правового статуса негосударственных некоммерческих организаций на конституционном уровне с целью повышения их роли в жизни общества и государства;

на основе анализа тенденций развития негосударственных некоммерческих организаций обоснована необходимость преподавания предмета «Право негосударственных некоммерческих организаций» в юридических высших учебных заведениях;

обоснована необходимость возложения ответственности за оказание практической помощи негосударственным некоммерческим организациям в качественной и своевременной реализации грантового проекта и мониторинге его результатов, а также координацию работы организаций-партнеров на Национального партнера;

обоснована необходимость внедрения новых современных механизмов социального партнерства и общественного контроля на базе электронного портала, позволяющего отслеживать состояние и тенденции развития гражданского общества;

на основе анализа перспектив осуществления электронного общественного контроля обосновано, что вопросы, которые подлежат размещению на электронном портале государственными органами и организациями в обязательном порядке, должны быть четко определены;

обоснована необходимость учета предложений и мнений широкой общественности при формировании приоритетных направлений конкурсов на государственные гранты и социальные заказы в целях совершенствования системы государственной поддержки негосударственных некоммерческих организаций.
